

BECOMING MORE ASKABLE WORKSHOP

21ST MAY REGISTRATION 1P-4P

Do you consider yourself approachable? Do youth come to you for support and resources about topics most important to them? Are you looking for new ways to support youth? Then this workshop is for you!

The Becoming More Askable workshop is an opportunity to ensure that young people in Arlington have at least one askable adult (a person youth has identified as willing and able to listen, provide support and understanding, and answer questions without judgment). Join us as we provide tips and identify strategies for becoming a more askable adult for the youth in your life. This workshop is geared towards all adults willing to support youth.
