

Safe Driving Traffic Law

Welcome to Week 2 of our Special Emphasis Program on Safe Driving, presented by the Office of Workers' Compensation and Loss Control Innovations!

This week, we're focusing on six key traffic laws that every driver needs to know and obey. Following these regulations is vital for ensuring road safety.

One important law is adhering to speed limits. You should modify your speed according to driving conditions. For example, if the posted speed limit is 70 MPH but it's raining or snowing heavily, you should lower your speed to suit the conditions.

For more details on these six vital traffic laws, visit: [Drive Safely Virginia Traffic Laws](#).

To explore this topic further or learn about other related subjects, the Office of Workers' Compensation, in collaboration with Loss Control Innovations, offers specialized courses. Feel free to contact a member of the Risk Management Team for assistance.

Six Traffic Laws All Drivers Should Know and Obey

- Speed Limits
- Stopping Laws
- Yielding Laws
- Passing Laws
- Parking Laws
- Cell Phone Laws
