FROM: Dr. Lisa Coons, Superintendent of Public Instruction

SUBJECT: **Timeline for Reporting 2023-2024 Accountability Results**

The Virginia Department of Education (VDOE) has established the following preliminary timeline for the release of accountability reports that are based on data from the 2022-2023 school year. The timeline is preliminary and subject to change. As in the past, school division staff will be notified of any change to the timeline, should one be necessary. Please protect student privacy by exercising care in sharing information from any of these reports.

Week of May 8, 2023

- **Preview** accreditation data will be available within the *Accreditation* application reports found in the VDOE [Single Sign-On for Web Systems (SSWS)](#). Initially, growth data will NOT be included in the preview results for the grades 3-8 mathematics and English combined rates. Divisions will be notified when the preview results include growth.
- It is important to note that **preview** results for the achievement indicators may be vastly different than final accreditation rates due to, in part, fewer test records at the beginning of the testing window, and the non-inclusion of growth. Also, other reports within the *Accreditation* application only reflect currently refreshed data. Accreditation results will be refreshed bi-weekly.

June 10, 2023

Preliminary reports are available in the *Cohort Graduation* application within SSWS, which includes:

- Graduation & Completion Index (GCI) reports;
- Federal Graduation Indicator (FGI) reports; and
- Virginia On-Time Graduation reports.

June 16, 2023

- The School Quality Profiles (SQP) *Finance* tab will be updated to include 2021-2022 school, division, and state per-pupil spending, as well as the percentage of expenditures for instruction for the division and state.
