

**Are you obsessed with a four letter word? S-T-E-M!**

Are you a self-starter who wants to learn even MORE about science?

Would you like to work with a partner to try to win medals?

Would you like to learn how to identify where a disease started, evaluate water quality, or design an experiment?

Do you like to read about or research physics, ornithology, severe weather, oceanography, or astronomy?

**If “yes”, then you may be interested in the  
Science Olympiad B Competition**

Science Olympiad tests students on their science knowledge in 21 events centered on specific scientific topics. Students can compete in either test-based (written), process, or building events. **Frost can have up to 45 team members, but only the best teams of 15 from the Regional tournaments will advance to State.** Visit <http://virginiaso.com/>..

**What do you need to do?**

- **Fill out** an interest form <https://forms.gle/uNURJk7Jg4D6jtxS9> **by 4:00 PM, October 7th**
- **Attend** Interest Meeting for parents and kids (**Wednesday, October 7th, 6:00 PM**) <https://meet.google.com/lookup/bbufpsag7l>
- Possible tryout on October 12th
- **Check out the events** at <https://virginiaso.org/events.php> to see if you are interested
- **Make sure you can participate** and attend the competitions:
  - ◆ **Key competition dates in 2020-21:** the Invitational (Dec. 12th), Regional (Jan. 30th, Feb. 6th), and State (TBD).
  - ◆ Scilympiad Software try out date - Jan. 16th
