

VIRTUAL PARENT GROUP

Supporting student's virtual learning and transition back to school

We will be discussing ways to help your child navigate online classes, stay focused, remain organized, and prepare for the return to school.

We will also have a Q&A for parents to ask questions and allow for parents to talk to one another about effective strategies they are using in the home.

We will be conducting virtual parent groups on the last Wednesday of each month at 7pm to discuss a variety of topics impacting students.

All parents are welcome.
