The Hidden in Plain Sight (HIPS) program is an IN-PERSON interactive program for adults to be educated about the signs of risky behavior in teens and young adults. It touches on drug and alcohol use, mental health concerns, eating disorders, risky sexual behaviors and more.

This is a hands-on learning adventure for PARENTS AND GUARDIANS ONLY! We guide you through a presentation that opens your eyes to what is right in front of you. This program begins with a setup of a teenager's bedroom which includes close to 100 "red flags" that indicate risky behavior. Parents are encouraged to touch everything and identify our red flags. Times have changed since we were teenagers... do you think you can find them?

That is followed by an educational portion that includes a PowerPoint presentation detailing the red flag props that the room contained and how it is indicative of — or used in — risky behavior. We include up to date statistics and local trends, and law enforcement officers will share their experiences they have had in our community identifying risky behavior and helping to put kids on the right path to a healthy life. Let's open the door to communicating with our teens!
