Registration done online at: www.novakidsinmotion.com Click "Online Registration" on the top left

After School Programs Provide:

- Positive Enrichment
- A chance to make friends
- Upbeat atmosphere
- Increased physical fitness
- Active time outside

Class Description:

Run Club is for boys and girls in grades K-6 who come out to run for fun and fitness! Kids run in groups with their peers. Throughout the class, coaches engage the kids in super fun running activities, such as sharks and minnows, tag games, relay races, and team racing competitions. We find that kids run so much more when we include running games or running competitions throughout the hour. During just running time, kids will run laps and track their distance or number of laps by picking up a popsicle stick at the completion of each lap and work toward running longer distances throughout the session.

Contact us at: **703-927-8653** or eleni@novakidsinmotion.com

Visit: www.novakidsinmotion.com

Grades K-5, April 11-June 6, no class 5/30, 3:45pm-4:45pm, \$105 (\$95 for PTA Pledged Members)

Mondays: Coding, by Stemtree

STEMTREE®
Your Education Center

Stemtree Technology Workouts After School Program Coding with Fun

It is important to note that children who attended our previous Stemtree camps or our after school program(s) will have different activities and continue learning new science and engineering concepts based on their prior work with us. Students will have new assessments and a customized learning plan in each of our programs.

Why Coding for the Kids?

Today most children use computers and manipulate media, but few of them know how to create the media or software they are using. We teach students how to create and develop computer programs (games, stories, etc.) instead of playing them. Students will learn the computer programming concepts in a fun and interactive way. They will combine media elements to create and share their own interactive stories, animations, games, music, and art.

Students will learn basic reasoning and problem solving skills. They will have an opportunity to think creatively, communicate clearly, use technologies fluently, and collaborate effectively. They will also create their own computer programs to implement computer games and combine multiple topics.

Content Focus:

- o Use of computer, learn programming language, develop computer games and apply basic science
- o Students will be assessed in case they already have Scratch programming experience.
- o Students' proficiency in technology are assessed during the first session. Based on the outcome of the assessment, we divide the students into groups of no more than 2 students.

Grades Level:

- o Your child does not need previous computer programming experience
- o Grades 1 - 6

Materials:

- o Software, Binder setup, UBS drives provided.

Tuition/Fees:

\$174 for 8 classes

Dates: 4/11-6/6 (no class 5/30)

Refund Policy:

- o As classes will run the full length of each session, there will be no make-up classes unless deemed necessary by the instructor. An individual class may be canceled due to weather or unforeseen circumstances. Cancellations will be brought to the attention of all participants as soon as possible. No refunds will be granted for requests made after the start of the program.

Grades 1-6, April 11-June 6, no class 5/30, 3:45pm-4:45pm, \$174

Thursdays: Elementary Drawing

It's spring time and that can mean only one thing: SPRINGTIME DRAWING WITH YOUNG REMBRANDTS! If your children are baseball fans, they will love our baseball still life lesson. Learning about warm colors and cool colors will be the focus as our artists draw a detailed exterior of a house. Students will explore the intricate details of the breathtaking Taj Mahal. Finally, we'll take an imaginary trip to some beautiful places to draw a cute flamingo as well as learn about the history and artistry of a kimono!

LEES CORNER ELEMENTARY CHESS CLUB

Fun is the name of the game...

...but Silver Knights also sneaks in a bit of critical thinking, sportsmanship, and patience into chess club!

Our great coaches teach students of all levels using a curriculum designed by our team of National Masters. Each week students do a fun but challenging lesson followed by practice games against other students in the class.

Join the 100,000 (and counting!) kids who've learned chess with Silver Knights!

All equipment is provided.

Grades K-6, April 15-June 3, \$154
