

May 4, 2023

Dear Fellow Rams,

Robinson Secondary School's Math Department would like to invite your student to register for and attend our Math Boot Camp this summer. The Math Boot Camp consists of three-hour sessions over the course of four days, which will focus on prerequisite math skills to be successful in the next math course. New course content will not be covered. As you know, high school mathematics courses can be extremely challenging, and our Math Boot Camp will help alleviate some of the pressures these difficult courses may create.

Math Boot Camp will be held from 9 a.m. to 12 p.m., Monday thru Thursday, August 7-10, 2023 at Robinson Secondary School. The cost of the camp is \$100.00 per student. There will be scholarship opportunities for students who demonstrate financial need.

Sessions are offered for students enrolled in Algebra 1, Geometry, and Algebra 2 for the 2023-24 school year. Students will be working in small group settings with teachers. Hands-on activities using a variety of resources are planned to help students develop their understanding of math fundamentals. Individually packaged snacks will be provided for the students, though transportation to and from school is not provided. Students are asked to bring a refillable water bottle. We encourage students to have their own TI-84+ calculator for Math Boot Camp (and for next year's math course!), but we will have them available for students to use, if necessary. Please feel free to contact our Boot Camp Coordinator, Mary Bowersox, at the email address below with any questions.

Students participating in the Bootcamp must keep their FCPS issued laptops over the summer to be used during the camp.

If you are interested in taking advantage of this opportunity to give your student an edge in math this year, please register online at. <https://bit.ly/RoboMathSummerBootcamp2023>

The deadline to register is Friday, June 30, 2023.

Payment will be collected by PayPal, using the instructions provided upon registration, and an Emergency Form will be required for every student.

Sincerely,

Mary Bowersox
