Excellence Academy Overview

The First Baptist Church of Vienna Excellence Academy provides individualized attention and group assistance for students. Tutors participate in a collaborative training to understand best practices and plan effectively for students. Tutors help to motivate students' participation and engagement in the classroom, as well as help to provide additional support for students that will aid them in the learning experience. We also have our music enrichment program which allows students to utilize their musical gifts and talents through the arts.

Vision

Every student regardless of life circumstance will have a real opportunity to succeed.

Mission

Excellence Academy assists students in grades K-8 to identify strategies to support learning and enhancing academic performance. Tutoring and music enrichment is conducted in a constructive atmosphere of learning using a variety of learning techniques tailored to each student's individual learning style. Excellence Academy's main goal is to inspire students to become confident, independent learners prepared to meet academic and personal challenges.

Goals

- Help students achieve their academic and future learning goals
- Identify and remove barriers that impede student success
- Promote student success by offering high-quality tutoring and music enrichment
- Give weekly dinners and fresh produce to students

WHAT ARE THE BENEFITS FOR STUDENTS?

- The Excellence Academy Tutors work closely with students to help them better understand and meet their Instructor's expectations and assignments.
- The Excellence Academy Tutors have the opportunity to get to know students and become a source of comfort for peer assistance both in and out of the tutoring program.
- The Excellence Academy Tutor can voice concerns to the school and/or teacher based on the tutoring program observations and feedback relating to student needs.
- The student also has an opportunity to participate in Music Enrichment which helps inspire and transform the youth and community by providing students with an opportunity to utilize their musical gifts and abilities.

Academic Enrichment

Excellence Academy's academic enrichment programming encompasses three main subject areas: math, reading, and science. Each session, students participate in these subject areas and receive tutoring and work on homework in order to provide as much support as possible in achieving their academic goals. Excellence Academy has retired educators and college volunteers, who are available for tutoring in all subject areas. At Excellence Academy, we believe academics are a core component of preparing students to be champions in their communities and prepare them to take advantage of every available opportunity for advancement and growth.

Music Enrichment Program

Our music enrichment program helps inspire and transform the youth and community

by providing students with an opportunity to utilize their musical gifts and abilities. Music is the tool which brings us all together to help us capture, excite, and expose the youth into doing something positive. This unique and

comprehensive learning experience for young musicians, provides opportunities for

students to progress and learn advanced musicianship skills and expose them to more through the arts, exploring different cultures, languages, and music thus allowing them to see more so they can be more!
