

PRUDENCE

"Always have a plan and believe in it. Nothing happens by accident."
-Chuck Knox

WHAT DOES PRUDENCE MEAN?

You plan ahead and make careful choices.
You set goals and work hard daily to achieve them.

WHY DOES THIS MATTER?

Making a plan, and making careful choices along the way, can help you get better results faster. Think about when you do a school project. It always comes out better when you start with a clear plan and follow careful steps along the way. Always keep in mind your bigger goals, and you will find the right path to achieve them.
