

LOVE

"It never hurts to keep looking for sunshine" -Eeyore

WHAT DOES LOVE MEAN?

You value close relationships with others and being close to people.

WHY DOES THIS MATTER?

Love is all around us, but you may have to look a little closer to see it. Your friendships are a great way to experience love. You care about your friends and look out for them, always wanting them to be happy. Your friends show love for you in the same way.
