

Science Olympiad:

Chantilly is very proud of our 3 Science Olympiad teams and how they performed at our regional tournament this past Saturday. This was a rescheduled event from Feb 17th. There were 30 competing teams. If you have any of the students who medaled, please congratulate them. The team rosters can be found below the medal results.

Pairs of students from each team competed in 24 different events. In some events, they take a written test, others they have to perform and experiment, and the last type of event requires students to design, build and test a device.

The purple team came in 3rd place earning us a trophy and an invitation to compete in the State Tournament. Our other two teams came in 11th and 14th. Thank you for taking the time to congratulate these students.

The following pairs of students earned medals for placing in the top six in an individual event.
