- First Aid/CPR
- 5 SOL Verified credits

Mathematics

Algebra 1 or Algebra 1 HN

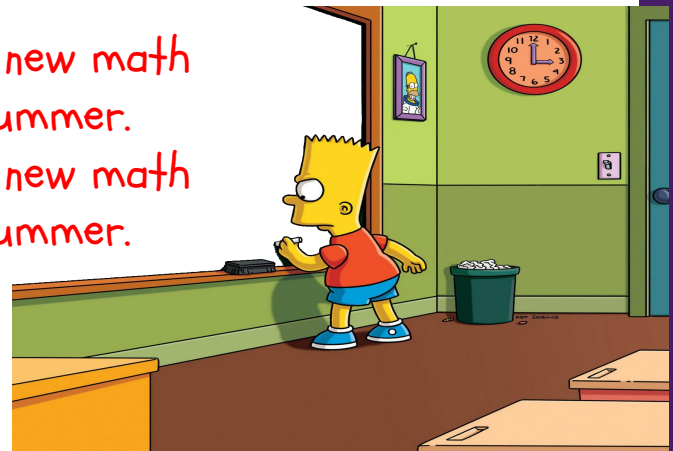

Geometry or Geometry HN

Algebra 2 or Algebra 2 HN

Honors level math courses include 8-12 additional concepts (required for the next honors level course) that are NOT covered in the standard version.

I will not take a new math class over the summer.

I will not take a new math class over the summer.

Advanced Academics

- 9th Graders *may* take HONORS and limited AP courses (must meet prereqs)
- 10th-12th graders may take honors, advanced placement or dual enrollment courses (must meet prereqs)
- NB- Acquiring the highest GPA is not the goal of HS....

Enrollment in Honors/ Advanced Academic Programs

Consider the cumulative effect of multiple honors courses. Prioritize balance and wellness.

It is fine to focus on organization and time management skills as a top priority before taking on more rigor.

Colleges do not consider “weighted” GPA’s. They consider unweighted grades, rigor, and the “story” of a HS experience.

Talk with your child about time commitments of sports, clubs, volunteering, religious activities, and family time as well as academics.

We want all students to be appropriately placed and appropriately challenged.

You CAN be admitted to college without taking an honors or AP class.

There are no “EASY” honors courses!

Students who are involved in student activities perform better academically.

- 100 clubs and organizations
- 20+ sports teams
- 3 student publications
- Performing arts (choir, band, orchestra, theatre)
- Visual arts
- Career and Technical Student Organizations
- Religious groups, scouts, community groups, etc.

Words of Wisdom

- What is one thing you wish you had known when you started HS?
- How can students make the best course selections?
- How do you find balance in your life as a student?
- How can parents best support their child in high school?
- Any other words of wisdom or advice for rising 9th graders and their parents?
