

Oakton Balance Project presents

PHONES, TECH, & KIDS PANEL

Thursday, May 29, 2025

6:30 - 8:00 PM

Oakton Elementary School Library

What's important to you when deciding how your child uses technology?

When (and if) to give them a phone? How to manage social media?

What role should laptops and educational tech play in their daily life?

Join us for a thoughtful, practical discussion featuring perspectives from local teachers, professionals, and community members. We'll explore how families can navigate the changing world of tech, phones, social media, and screen time.

Open to all - students welcome! Registration is preferred, but not required. Light refreshments will be served.

REGISTER HERE
