Come experience two essential parts of your child's day!

Morning Meeting builds community and sets the stage for social and academic success through greetings, activities, sharing and a daily message.

During Learning Centers, children engage in hands-on learning through play and exploration in various centers. Learning standards are integrated into activities and materials are available for exploration, construction & play.

You'll also hear a brief presentation from our administrators about communication, attendance and ways to support your child's literacy.

We look forward to seeing you there!
