

Dear Families:

As your student is coming to the end of Benchmark Advance Unit 1, we wanted to share information to help you support the development of reading and writing at home.

Unit Topic & Key Concepts:

Unit 1: Relationships in Nature

- People can be deeply affected by their interactions with the natural world.
- When people make personal connections to nature, they may be inspired to try to preserve it.
- Human actions can have a negative effect on the environment, but communities can work together to restore and protect ecosystems.
- Key conservationists in history have had a big impact on the ways people in the U.S. and around the world relate to nature.

Learning Goals:

Phonics & Word Study	Reading Comprehension	Writing
<ul style="list-style-type: none">● Reading big words strategy● Short vowels● Closed syllables	<ul style="list-style-type: none">● Determine a central idea and how it's conveyed in details● Analyze how a key idea is developed in a text● Compare and contrast author's presentation of events	<ul style="list-style-type: none">● Write an informative essay using evidence from sources● Subjective, objective, and possessive pronouns● Correct vague pronouns

For additional details, review the FCPS Family-Facing Curriculum site: fcps.edu/academics/curriculum

Student Literacy Progress:

For Unit 1, see the attached student magazine highlighting your student's work. In addition, your child completed the following assessments:

- *Benchmark Unit 1, Week 2 Assessment to measure how they are progressing with learning standards related to reading comprehension. Your child's results on this assessment can be viewed in Benchmark Universe (accessed through Schoology) ([directions to view assessment](#))*

These assessments results above provide teachers with a snapshot of how students are progressing in grade level expectations and include questions that cover multiple progress report standards. These scores are one of many data points that will be considered when assigning progress report scores. They inform your child's teacher of areas where they need additional instruction and practice, so they can continue to work towards mastering grade level standards. You can expect performance on the assessments to increase over time as the students continue to learn and practice their grade level skills.

Home Activities:

- Review the Student Magazine and Activity Calendar.
- Talk about the texts your child read at school.
- Try some of the daily activities from the calendar.
