Student Literacy Progress:

In this Unit, your child completed the following assessments.

- **Benchmark Unit 3, Week 2 Assessment:** *This assessment measures how they are progressing with applying their knowledge of grade-level standards to new texts that they read independently. Weekly assessments focus on standards related to reading comprehension. Your child's results on this assessment can be viewed in Benchmark Universe (accessed through Schoology) ([directions to view assessment](#)).*

The assessments results above provide teachers with a snapshot of how students are progressing in grade level expectations and include questions that cover multiple progress report standards. These scores are one of many data points that will be considered when assigning progress report scores. They inform teachers of areas where students may need additional instruction and practice, so they can continue to work towards mastering grade level standards. You can expect performance on the assessments to increase over time as the students continue to learn and practice their grade level skills.

In addition to these formal assessments, your child also worked to build knowledge on the unit topic, apply strategies while reading texts, and demonstrate comprehension through writing. Please review your child's unit magazine that will also show you how they are progressing in Language Arts.
