Getting Started with your Kaplan PSAT Course

Once you've become familiar with the PSAT and the Kaplan Method, it's time to explore the various topics covered on the PSAT. Your PSAT course is a self-paced course, using Kaplan's live online content. As a result, you will not be accessing live class sessions or joining sessions from your calendar. However, you have access to Kaplan's "best of" class recordings!

Each of the 3 Sessions includes a pdf you can download and follow along with the instructor as they explain various concepts covered in the recording of a previous live session.

Welcome to Session 1!

This pdf will help you follow along with your teacher.
