

Chesterbrook Elementary School
Private Tutoring Options Fall 2026

Dear Parents and Guardians,

During the school year, families may request information about private tutoring options. Below is a list of Chesterbrook staff members who are available to provide private tutoring.

Families may contact staff members directly to discuss arrangements, including pricing, subject matter, and frequency. Staff members are considered private contractors when providing tutoring, and all arrangements are made independently between the family and the staff member.

FCPS staff members are not permitted to privately tutor their own students for compensation during the school year. Additionally, because grade-level teachers may work with students in their grade throughout the year, Chesterbrook teachers do not privately tutor students in their same grade level during the academic year.

The Family Resource Center also maintains a current list of FCPS staff members available for private tutoring. Families may contact the Family Resource Center at frc@fcps.edu to request a copy of the list.
