

Your child's first 5 years of life are so important!

**We want to help you provide the
best start for your child.**

Just as routine hearing and vision screenings can ensure that children can hear and see clearly, developmental and behavioral screenings can ensure that children are making progress in their language, social, and motor development.

**Together, we can make sure young children get
the services and support they need as early as
possible to help them thrive.**

Contact us for a Free Developmental Screening

- YOU are the expert on your child and are your child's first and best teacher!
- We will guide you through the screening process with your child, which just takes a few minutes.
- We will recommend free activities, information, and resources to support your child's development.
