If you are a parent, provider, or anyone with an idea to improve Department of Early Learning programs, these meetings are for you!

The Department of Early Learning Needs Your Feedback!

The Department of Early Learning (DEL) will submit a Child Care and Development Fund (CCDF) Plan to determine program funding for the next three years. Join us at a public meeting or webinar to provide input on CCDF-funded programs that are part of the plan. CCDF funds provide access to child care, growth opportunities for providers, supports to child care programs to achieve higher standards, and resources to help families find child care that meets their needs.
