Funding available to address tribal juvenile justice needs

The Washington State Partnership Council on Juvenile Justice (WA-PCJJ) is requesting proposals from Tribal governments for the Juvenile Justice and Delinquency Prevention (JJDP) Act Title II Formula Grants Program's Native American Pass-Through funding.

WA-PCJJ and the Office of Juvenile Justice administer the federal Office of Juvenile Justice and Delinquency Prevention (OJJDP) Title II Formula Grants Program, which includes funding for eligible Federally-recognized American Indian and Native American tribes. Funding is available for Native American Tribes to address juvenile justice needs of their youth in Washington State. Needs specifically related to the following WA-PCJJ priority areas include:

- **Deinstitutionalization of Status Offenders:** Remove non-offender youth (such as a dependent or neglected child) and status offenders (such as a runaway or truant) from locked facilities.
- **Racial & Ethnic Disparities Reduction:** Address juvenile delinquency prevention and system improvement efforts designed to reduce the disproportionate number of Native American youth who come into contact with the juvenile justice system, with a focus on the arrest and referral decision points.
- **Reentry and Transitional Programs:** Programs that support youth and their families with the process of reentry and transition back into their home communities from either local detention facilities or state institutions.
- **Restorative Justice:** A collaborative community based approach to juvenile justice that holds juvenile offenders accountable to the people and communities they have harmed, enhances community safety and security, provides offender rehabilitation and reintegration, and respects the rights of victims in the process.
- **Strengthening the Juvenile Justice System in Rural Areas:** Program planning and capacity building that address needs and challenges of juvenile justice systems in rural and underserved communities.

Amount: A total of approximately \$15,000 is available to fund one or more projects. Applicants may submit a proposal that does not exceed \$15,000. Funds can be utilized for new efforts or for expansion of current efforts in the identified program area.

Proposals due date: December 7, 2020. Grant period is January 1, 2021 – September 30, 2021.

ADDITIONAL BUDGET INFORMATION

Supplies

The key word in determining whether an item belongs in the Supplies category is "consumable." If it can be used up, then it is a supply item.

The exception to the "consumable" guideline is training material such as books, films and videotapes. These are considered consumable because they are not fixed assets and can become worn out or outdated.

Other Services and Charges

This category is for services other than Personnel, which are required in the administration of the project. Such services may include communication, advertising, and rentals. Expenses for staff training, such as workshop fees, may be included.

Travel

All travel costs are included in this category, including personal car mileage, airfares, per diem, etc.

Contractual

Any sub-contracts funded through this technical assistance award.

The important distinction to remember is that when an agency contracts with an individual (no matter what service is to be delivered) the cost is reported in Contractual, not in Personnel.
