- (r) Placing the separated child in a closet, bathroom, locked room, out of visual range in an approved tent, cabin, yurt or other structure; or in an unlicensed space; and
- (s) Using confineding space or equipment to punish a child or restrict movement.
- (2) If ONB providers become aware of the prohibited behavior, discipline, and physical removal of children as listed in subsection (1)(a) through (s) by anyone in the ONB program, they must take steps to prevent and must not tolerate these actions.
- (23) ONB providers must supervise to protect children from the harmful acts of other children. ONB providers must immediately intervene when they become aware that a child or children are teasing, fighting, bullying, intimidating, or becoming physically aggressive.
- (34) ONB providers may separate a child from other children when that child needs to regain control of themselves.
- (a) During separation time, the child must remain under the appropriate level of supervision of a licensee, director, program director, assistant director, site director, program supervisor, lead teacher or an assistant teacher.
- (b) Separation time should be minimized and appropriate to the needs of the individual child.
 - (45) If a child is separated from other children, ONB providers must:
- (a) Consider the child's developmental level, language skills, individual and special needs, and ability to understand the consequences of their actions; and
- (b) Communicate to the child the reason for being separated from the other children.
- (56) If ONB providers follow all strategies in this section, and a child continues to behave in an unsafe manner, only a licensee, director, program director, assistant director, site director, program supervisor, lead teacher, or an assistant teacher may physically remove the child to a less stimulating environment. Staff must remain calm and use a calm voice when directing or removing the child. Physical removal of a child is determined by that child's ability to walk:
- (a) If the child is willing and able to walk, staff may hold the child's hand and walk them away from the situation.
- (b) If the child is not willing or able to walk, staff may pick the child up and remove them to a quiet place where the child cannot hurt themselves or others.
