

Switch Kit for play in Early Intervention!

Try out a new switch-accessible play technology with your clients and provide the designers with feedback

We are recruiting:
Clinicians who provide
Early Intervention
services

- Physical Therapists
- Occupational Therapists
- Speech Language Pathologists
- All other specialties

Study activities include:

- Incorporating the switch kit as desired during typical therapy visits
- Completing surveys and questionnaires (~15 minutes/week)
- Talking with us about your experience using the switch kit

Study logistics:

- Use the switch kit for 4-6 weeks during typical therapy sessions
- Participate in 2, 1-hour sessions with the research team
- You will be compensated \$50 for your participation, and will have the option to keep a switch kit for your clinic at the end of your participation.

Interested in participating? Please contact Mia Hoffman at miahoff@uw.edu to enroll, ask questions, or receive more information.
