

## SFY25 HVSA Opt-In Reflective Practices Learning: FAN Offerings by Quarter

Facilitating Attuned Interactions (FAN) is a mental framework and practical tool for professionals working with families. Facilitated by Cooper House FAN trainers and mentors, FAN offerings help you attune to the caregivers you work with, stay grounded, and grow your reflective practice.

Knowing that the cost of reflective practice trainings are often out of reach for home visiting programs, the HVSA funds limited spots in FAN trainings to ensure equitable access to high quality professional development, regardless of model, program size or agency location. ***Please Note:*** These trainings are open to HVSA-funded home visiting programs only.
