Emergency Rules

- ☐ Immediately upon filing.
☒ Later (specify) June 29, 2022

Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?

- ☐ Yes ☒ No If Yes, explain:

Purpose: Commerce received a request from a water heater manufacturer on Sept. 29, 2021, to temporarily suspend the effective date in the water heater appliance standards rule (WAC 194-24-180) due to an inability to obtain parts required for the modular communications port (CTA-2045) due to supply chain disruptions caused by the COVID-19 pandemic. Following a public comment period with participation from manufacturers, installers, energy efficiency organizations, environmental organizations, and electric utilities, Commerce found sufficient evidence to support an emergency rule amending WAC 194-24-180 to suspend the rule's effective date until March 1, 2022. Commerce issued a preproposal notice of inquiry (CR-101) in order to determine a reasonable effective date on a permanent basis and adopted an emergency rule until June 29, 2022. In light of continuing economic and supply chain disruptions caused by the COVID-19 pandemic, Commerce has determined that a further delay of the effective date is warranted. Commerce has simultaneously issued a proposed rulemaking inquiry (CR-102) in order to permanently amend WAC 194-24-180 to delay the effective date of the regulation to a reasonable date. Commerce is issuing this CR-103E to adopt an emergency rule to delay the effective date of WAC 194-24-180 an additional 120 days, until October 27, 2022, while it undertakes the appropriate procedures to adopt the permanent rule.

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- ☒ That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- ☐ That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The economic disruptions resulting from the COVID-19 pandemic continue to stymie global supply chains, preventing manufacturers from accessing critical materials required for manufacturing the electronic communication ports. These disruptions are already affecting the supply of compliant heat pump water heaters, which are primarily installed in new buildings, and were expected to escalate in January 2022 when standard resistance water heaters were to become covered by the standard.

The current effective date in the rule is June 29, 2022. This emergency rule suspends the effective date until October 27, 2022, in order to provide time for Commerce to conduct the procedures required to adopt a permanent rule establishing an effective date for the water heater standard.
