DDA Dan Thompson Fall 2026 Updates

We are excited to share a few updates about Dan Thompson memorial account grant funding! These grants go towards innovative community-driven projects that support people with intellectual and developmental disabilities (I/DD) across Washington state.

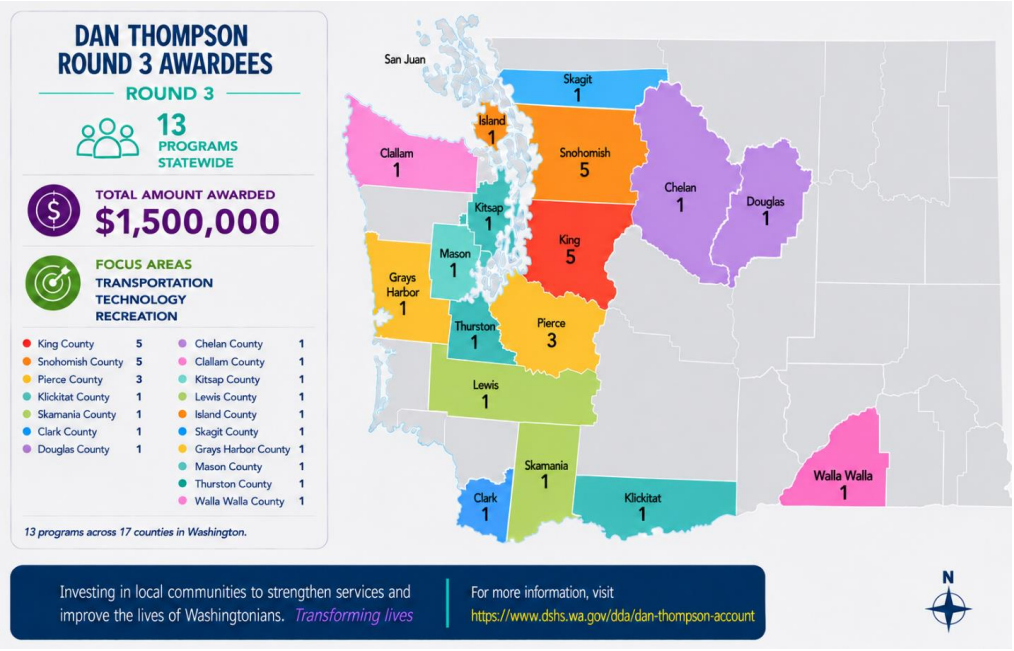

Current Dan Thompson grant awards are improving access to **Recreation**, **Transportation**, and **Innovative Technology**. Some examples of grant-funded activities include wheelchair-accessible transportation support, bocce ball, kayaking, accessible nature trails, online gaming cohorts, Brick to Brick LEGO® clubs, and many more!

Want to learn more about new grant-funded projects in your area? The [DSHS DDA Dan Thompson website] has a list of all grant awardees with a brief description of the grant projects, where they are located, and links to their websites.

Be on the lookout for more grant award announcements very soon!

Grant Impacts

Here are the counties most directly impacted by Round 3 grant funds:
