

BILLING UPDATE – COVID-19

October 19, 2023

Dear Childhood Vaccine Program Provider:

As a reminder, effective for **September 14, 2023** dates of service forward, **all** COVID-19 vaccines for commercially insured children (non-VFC) under the age of 19 were added to the [WVA Vaccine Assessment Grid](#) for billing purposes. **See billing code changes in the table below.** These vaccines require the V25 Eligibility Code during the [WA DOH eligibility screening process](#).

As a reminder, all COVID-19 vaccines with dates of service since **September 14, 2023**, should be billed to payers using the WVA’s dosage-based assessment (DBA) process. **As a provider, you should have already updated your billing systems/fee schedules to include these vaccines when submitting DBAs.** The WVA Assessment Grid Amount to use in the charges field is the **same \$105.00** for all COVID vaccines until June 30, 2024.

For more information regarding compliance with the DBA process, please see the [WVA Private Insurance Assessment Billing Provider Guide](#) or email info@wavaccine.org. To stay connected with WA DOH program updates and helpful resources, please send an email to WVChildhoodVaccines@doh.wa.gov to sign up for the WA DOH Vaccine Blurb email list.

Thank you for your continued support of the WVA.

Best regards,

Julia Walter Zell, MA, Esq., Executive Director

**Update your
billing system!**

Effective September 14, 2023, the following vaccines have been added to the WVA’s Vaccine Assessment Grid:
