Emergency Rules

- Immediately upon filing.
 Later (specify)

Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?

- Yes No If Yes, explain:

Purpose: Out-of-state nursing school requirements for licensure. The Washington State Board of Nursing (board) is amending WAC 246-840-030 and 246-840-090 to clarify existing licensure requirements for registered nurse (RN) and licensed practical nurse (LPN) applicants applying for initial licensure via an out-of-state traditional nursing education program approved by another U.S. nursing board, and applicants applying via interstate endorsement.

The board is engaged in permanent rulemaking to adopt these emergency amendments as permanent rules. Transition from emergency to permanent rules was approved by the board and a notice of intent to begin rulemaking was filed on May 24, 2023, under WSR 23-11-143. A public hearing was recently held on March 8, 2024, and the adoption of permanent rules is moving forward.

This is the fourth emergency rule, initially filed as WSR 23-11-015 on May 5, 2023, and most recently filed as WSR 24-02-059 on December 29, 2023. The amended language in this emergency rule has not changed since the last emergency rule filing.

The rules as currently written state that a nurse who has graduated from another state's approved nursing program or from a substantially equivalent program may be licensed in Washington. The board became aware that certain nursing programs in Florida and elsewhere had fraudulent programs that did not meet the educational standards of any state. The emergency rule language clarifies the board's authority to protect the people of Washington by only licensing qualified, properly trained nurses who meet minimum educational standards.

These emergency rules clarify that RN and LPN applicants, applying for licensure via interstate endorsement or for initial licensure via an out-of-state traditional nursing education program approved by another U.S. nursing board, must successfully complete a nursing education program in another U.S. state, which is approved by the nursing board in that state and substantially meets requirements for nursing education approved in Washington state. The amendments also reaffirm that the board retains the authority to evaluate and determine the sufficiency of academic preparation for all applicants. These amendments are preliminary steps to future permanent rule amendments and clarification identified by the board's licensing subcommittee.

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: Immediate amendment of these rules is necessary for the preservation of the public health, safety, and general welfare and observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest. Adoption of emergency rules described above is necessary to ensure nurses working in Washington state meet minimum standards for safe practice. This emergency rule will be refilled every 120 days until permanent rule making is completed. Permanent rule making is currently in process and is almost completed.
