Environmental Services Infection Prevention & Control

Train the Trainer Series

Environmental services (EVS) staff play a critical role in infection prevention in health care settings. Proper training is critical — both for staff members who clean *and* the subject matter experts who train them. This Department of Health (DOH) **Train the Trainer** series is **for subject matter experts** who will deliver EVS Infection Prevention and Control (IPC) training in the Long Term Care (LTC) setting.

Who should attend: This training is ideal for LTC Educators, LTC IPs, and EVS Leads.

Why it matters: EVS staff education, hands-on training, and feedback can improve cleaning and help reduce the incidence of healthcare-associated infections.

Zoom Registration

Register in advance for this webinar at https://us02web.zoom.us/webinar/register/WN_yvgfxA5RQIK6aLWwyT-EMw

After registering, look for a confirmation email in your inbox with instructions to join the webinar.

Any questions? Please email HA1@doh.wa.gov and put “EVS TTT” in the subject line.
