Purpose: Physical Therapists and Physical Therapist Assistants - Reducing licensure barriers. The Board of Physical Therapy (board) is adopting amendments to WAC 246-915-030, 246-915-040, 246-915-085, and 246-915-120 to waive education, training, experience, and examination requirements for applicants that qualify for licensure by endorsement in order to comply with Section 8 of Second Substitute House Bill (2SHB) 1724 (chapter 425, Laws of 2023), codified as RCW 18.130.077. Additionally, the board is adopting amendments to WAC 246-915-040 to further expand upon the endorsement pathway required under RCW 18.130.077 and amendments to WAC 246-915-120 to streamline the foreign educated applicant process.

Under RCW 18.130.077, all disciplining authorities shall waive education, training, experience, and exam requirements for applicants who have been credentialed in another state or states with substantially equivalent standards for at least two years immediately preceding their application with no interruption in licensure for longer than 90 days. The statute also allows disciplining authorities to choose to waive education, training, experience, and exam requirements for applicants who have achieved the national credential for their profession. However, the physical therapy professions do not have a national certification that the board could consider as a pathway to licensure.

Additional adopted amendments to WAC 246-915-040 add a new a licensure by endorsement pathway for applicants who have been actively licensed for less than two years in a state or states with substantially equivalent standards to Washington. The board is also adopting further amendments to the foreign educated applicants section to clarify the requirements in WAC 246-915-120.

The purpose of the adopted amendments includes reducing licensure barriers, aligning with recent legislation, waiving certain requirements for applicants qualifying for licensure by endorsement, and streamlining the process for foreign educated applicants. To account for changes to the credentialing system the board is delaying the effective date to December 31, 2025.
