SSB 5924	Expanding prescriptive authority for pharmacists	Pharmacists that wish to exercise certain diagnosis and prescriptive authority must enter into a collaborative drug therapy agreement (CDTA) with a licensed physician under current statute. This bill expands the prescriptive authority for pharmacists licensed and practicing in Washington by amending the “practice of pharmacy.” The definition for “practice of pharmacy” in RCW 18.64.011(32) is amended to include “diagnosing and the prescribing or ordering of drugs and devices based on his or her education, training, and experience” as permitted under a pharmacist’s scope of practice. RCW 69.41.030 is also amended to remove a qualifying statement for pharmacists that references a CDTA being a necessary condition for a pharmacist to issue an order or prescription for a legend drug. RCW 43.42A.030 is amended to list the required elements for each catalog entry, how entries must be updated, and how the state must ensure website and repository accessibility to applicants. Agency performance relating to tracking credential timelines will be posted on the department's website starting with the 2027 reporting period, and the bill outlines agency deadlines for compiling and reporting credentialing information.
