

## Join our call series

# ipCHAT Infection Prevention & Control Health Access Team for Nursing Homes

## The details

### Twice a month

The 1<sup>st</sup> and 3<sup>rd</sup> Tuesday  
of the month at 11:00 AM

### Microlearning

Brief educational topic  
followed by Q & A

### Sharing and support

Bring challenges,  
share solutions

### Perks for participation

Long term care bundle from  
the Association for Professionals  
in Infection Control (APIC)

## What is it?

This call series will bring together experienced and novice infection preventionists to share challenges, solutions, and best practices. Everyone has something to learn! Everyone has something to teach!

## Why?

Nursing homes are required to meet new federal regulatory standards for

- Infection prevention and
- Antibiotic stewardship.

It's a big responsibility for the infection preventionist and may feel overwhelming. **We're here to help!**
