

Washington BizFair 2022

FREE EVENT for Small Businesses in Washington

Saturday, September 24th, 2022

Come attend the 26th annual Washington State BizFair!

The longest running all government and non-profit-run **FREE** small business fair in Washington State. This year, it is a hybrid event, **FREE** to attend and the overarching goal of the event has always been to help current and aspiring small business owners start or grow their business.

- **Sharpen your business skills** by attending virtual sessions taught by savvy business experts who will share their knowledge and real-life experiences in a no-sales environment.
- **Visit Virtual Booths in the Exhibit Hall** which are staffed by representatives from federal, state and local government agencies, businesses and trade associations. You will gain access to valuable resources and documents that you may peruse and download to your laptop or smartphone thus allowing you to also be environmentally conscious. Finally, you can chat with the staffers in the virtual booth and select appointment slots to ask them questions and have in-depth discussions.
- **Find out how non-profit organizations can help** you with funding, legal support, and more.
- **Attend the event in-person** at the Renton Technical College. There will be an in-person only special track of sessions which will provide you access to information and experts in an interactive fashion. Representatives from federal, state and local government agencies, and business and trade associations will be staffing tables, ready to answer any questions you may have about your business and willing to engage in extended discussions.

Registered attendees can continue to access the event for FREE until June 2023 to replay sessions, review chats/discussions, look up attendees, speakers, exhibitors etc. and continue networking past day of the event. Visit <https://bizfair.org/> for more information.
