

To All CPC Trainer's ,

I would like to take the time to extend a special thanks on behalf of all the peers who received the training at Walla Walla. We understand that it took some time and that it was a process to make this happen. We understand that everyone involved were deeply moved in one way or another. We understand that the ones that made this training happen, there were many no's involved when trying to facilitate this class. There was something that we all took from this class and I will try not to take too much time in explaining it.

The community within our prison was brought together with the ones who took the class. I/we who had the special experience in taking the class understand that we were making history just showing up. We took the information from this class and will spread the love that we received in this training. Community is the key in all this. We took many guys from all different walks, culture, affiliations, and brought them together to help us understand the importance of being with someone, standing next to them in life no matter what, and how much that can touch someone's life. We cannot express how much this meant to each and every one of us! After speaking with many peers who were in the class, we all agreed that the feeling we had walking out of the class with that certificate was better then any drink, any high, any jump out of a plane or any climb of the tallest mountain, The feeling was that amazing and I hope you all understand the impact you've had in our life's by just giving us that chance to be within that space, to share that space, and walk with us in our journey.

If there is anything any of us can do to help promote this positive transformation in anyone's life's, please feel free to ask. As we move forward in life we will take the skills we learned and create a ripple effect in each of our community's with the information we learned in this class. The world needs more of these types of peers who are willing to be invited into these spaces and help everyone understand that we All matter.

On behalf of the peers who were in the CPC class at Walla Walla, we thank you Terrance, Josh, Prima, Annette, Mo, and Amanda. The way you have touched our life's gave us the motivation to do the same in our own journeys!

Thank you!
