

2026 Emergency Support Function #2 Spring Training Salem, Oregon | May 4 -7, 2026

SAVE THE DATE & REGISTRATION

CISA's Emergency Support Function (ESF) #2 Communications team invites you to attend the 2026 ESF #2 Spring Training. This event is free and open to all partners, including private industry, federal agencies, state, local, tribal, and territorial stakeholders. This training will be broadcast via MS Teams for all virtual participants.

The 2026 Spring Training will continue the cadence and structure of our previous workshops. While the agenda and hotel details are forthcoming, the event will focus on professional development, collaborative planning, and interagency coordination. We plan to facilitate a Cascadia Subduction Zone-focused functional exercise. We look forward to validating emergency communications procedures, discussing incident response best practices, and facilitating information sharing through panels, case studies, and technical briefings.

Please feel free to reach out to esf2@cisa.dhs.gov with any recommendations, questions, or concerns. We look forward to seeing you in the spring!
