

# MASS FATALITY & REUNIFICATION TRAINING

This training will provide participants with a clear understanding of legal authorities, operational roles, and coordination responsibilities across agencies during a mass fatality incident.

Core components of the workshop will include presentations on mass fatality management, reunification operations, family assistance center operations, and the integration of cultural and tribal considerations.

## WHEN

April 8 & 9  
9AM — 4:30PM

## WHERE

Three Regional Training Hubs

- Tacoma
- Yakima
- Spokane  
(specifics to come)

## WHO SHOULD ATTEND

The governmental public health system, including tribal health jurisdictions, local health jurisdictions, state agencies, healthcare partners, emergency management partners and medical examiners/coroners.
