Emergency Management Division

Washington State Emergency Operations Center (SEOC)

Statewide Lifelines

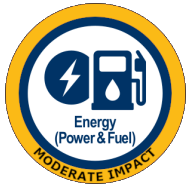

Safety and Security

- Federal emergency declaration announced for wildfires in 6 counties and for 2 Tribes.
- Washington National guard activated to support firefighting operations.
- Approximately 189,000 people under evacuation orders, with a reported 92,903 people currently evacuated.
- Approximately 31,489 structures threatened.
- Air Quality Alerts have been issued for Asotin, Chelan, Douglas, Ferry, Okanogan, Pend Oreille, and Stevens Counties until further notice.

Water Systems

- DOH is currently monitoring 40 public water systems within 2 miles of an active fire perimeter.
- 3 Boil Water Advisories in effect statewide — impacting approx. 627 persons.
- City of Spokane Water Utility does not have remote communication with their Indian Trail and Indian Hills Reservoirs and associated infrastructure due to comms and power outages.

Energy

- Active power outages in Eastern WA affecting approximately 3,000 people Wildfire threatening power lines in Okanagan and Spokane County.
- Power lines and poles damaged, transmission of power is inhibited.
- 5,600 without natural gas.

Transportation

- Numerous road closures throughout Eastern WA in Stevens, Okanogan, and Chelan Counties as well as on the Colville Reservation.
- Current highway closures: swathes of SR 155, SR 291, SR 29.
- Roadway conditions continue to evolve as fire activity, suppression efforts, and wind conditions change.

Food, Hydration, Shelter

- Over 600 structures are reported destroyed, most in the Spokane area.
- There are 670 total shelter clients and 60 pets reported across open shelters and identified sheltering sites
- Power outages threatening food security due to impacted food storage capabilities.

*Corrected statement from earlier report. Shelter food capacity remains acceptable.

Health and Medical

- VA Hospital in Spokane is evacuated, several patients are now housed in shelters without access to prescribed medical supplies, concerns ongoing.
- Air Quality Alerts have been issued for Asotin, Chelan, Douglas, Ferry, Okanogan, Pend Oreille, and Stevens Counties until further notice.

Communications

- There are no known statewide impacts at this time.

Hazardous Materials

- There are no known statewide impacts at this time.

Spokane Tribe of Indians Community Lifelines

Safety and Security

- Spokane Tribal Police presence in the evacuation areas to prevent looting and turn away on-lookers. Also, conducting traffic control. No additional resource or staffing needs as of now.

Water Systems

- West End Water tower lost power but is back in fully operational status and full for now. There are no other reported impact at this time.

Energy

- There is a power outage affecting approximately 50 structures currently.

Transportation

- There is no damaged transportation infrastructure noted at this time, but it will need to be further assessed.

Food, Hydration, Shelter

- Food and hydration needs are stable. The Rodeo grounds are opened for Livestock relocation needs. The following Shelters have been opened for evacuees: Pow wow Pavilion in Wellpinit, WA for RV's and the Longhouse in Wellpinit, WA for individuals without an RV. Currently, there is a rough estimate of 40-50 residences evacuated.

Health and Medical

- There are significant air quality issues within the community due to the smoke. Requests have been made for 200 Air purifiers and 30 supporting generators.

Communications

- There is degraded LTE/cell coverage in the affected area. An AT&T booster truck was placed near the two rivers area but is ineffective for other carriers.

Hazardous Materials

- There are no impacts at this time outside of standard household chemicals in the burn areas.

MITRE ROCK FIRE – SPOKANE TRIBE OF INDIANS

Current Situation

The Mitre Rock Fire is at **4,295** acres, and 0% containment. Firefighters will continue to focus on suppression efforts north of the Spokane River, where the fire remains most active. Moderated weather conditions today will aid fire crews in establishing control lines and protecting values at risk in the West End Community. As visibility increases, water and retardant drops by air tankers are also expected to aid crews with these efforts. Crews will continue with mop up on the fire's edge south of the Spokane River. Fort Spokane day use and camping remains closed, as fire managers assess the fire and determine needs.

Okanogan County Community Lifelines

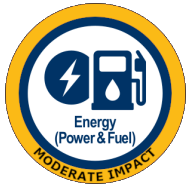

Safety and Security

- There are no known impacts reported.

Water Systems

- Northwest Wastewater treatment plant evacuated (8/01/26) 87 people under boil water advisory.

Energy

- Multiple power poles burned.

Transportation

- Hwy 155 remains closed. Multiple road closures and Level 3 evacuations remain in effect.

Food, Hydration, Shelter

- Tribe has sourced water and deposited water caches at donation points and shelters. Water supply remains unknown in Inchelium Community. There is a boil water order in place for Inchelium when people go back. Three shelters remain open: Omak Community Center, Kettle Falls Middle School, and Rosevelt High School in Coulee Dam. Long term housing will be an enduring need.

Health and Medical

- Air Quality is unhealthy to very unhealthy.

Communications

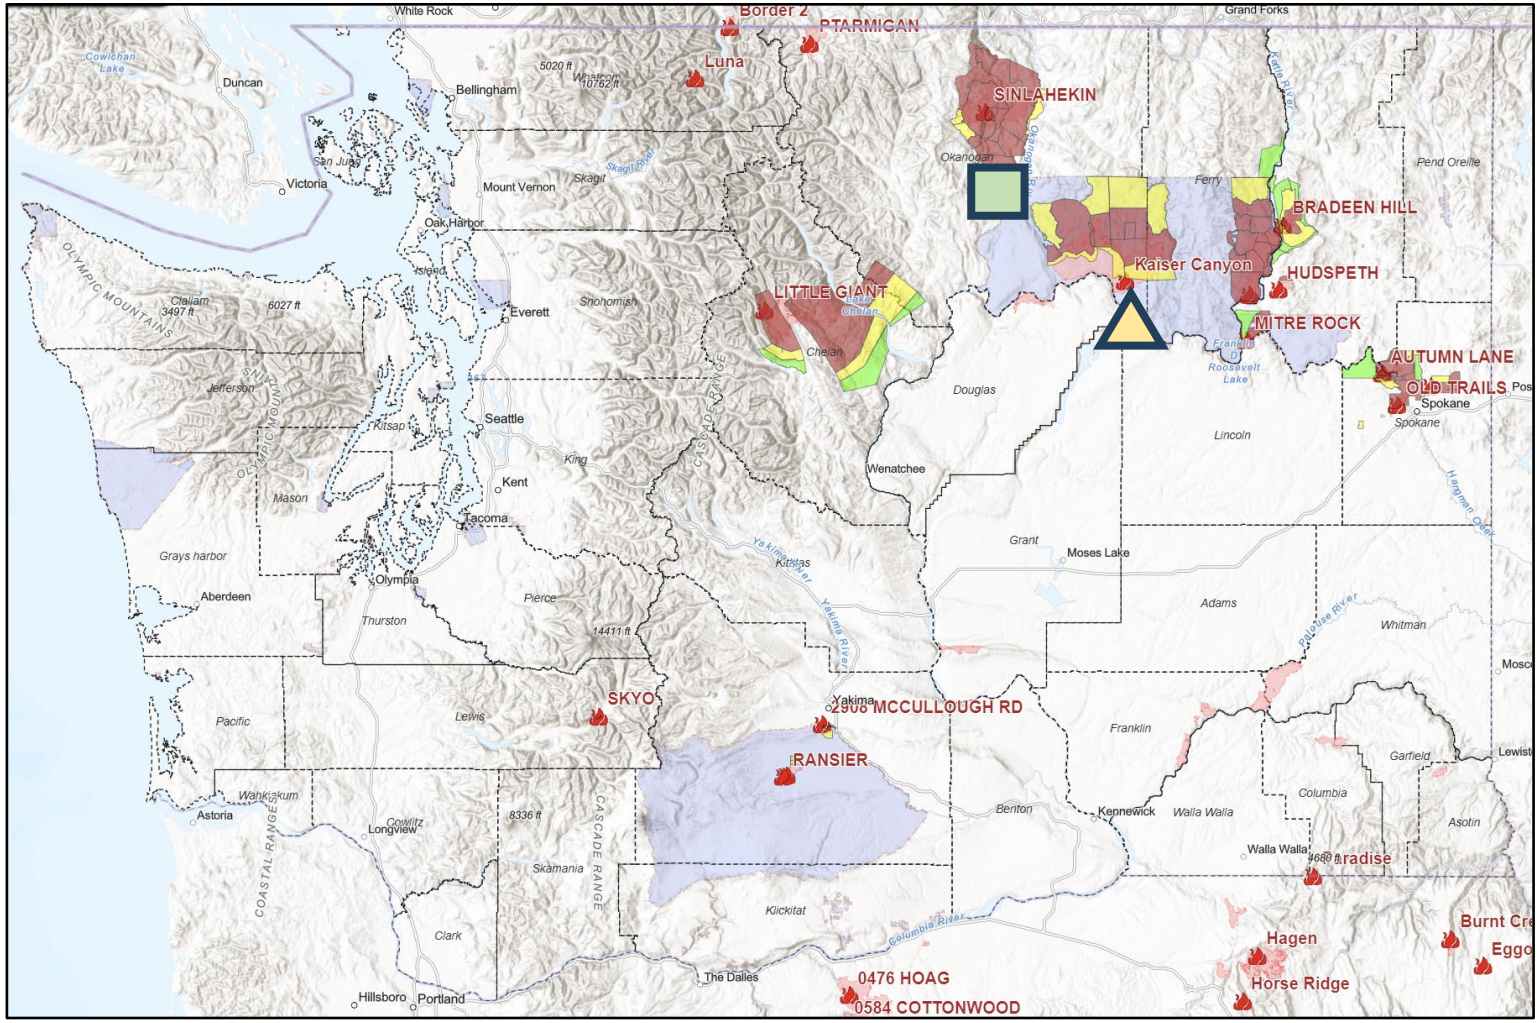

- Cell-on-wheels from AT&T was ordered by the IMT for Modrite Fire impacts.

Hazardous Materials

- Okanogan Landfill indicated that all material from burned houses that are brought to the landfill need asbestos testing before they can be accepted.

- Engines: 75
- Dozers: 16
- Helicopters: 2
- Fixed Wing: 2

Fire perimeter as of 08/03/2026 1530

Impacts

Estimated Homes and Structures Threatened:
- 1,183 structures threatened
- 44 homes destroyed
- 20 Commercial Structures Threatened

Shelter:
- Lake Roosevelt High School: 14 occupants
- Omak Community Center: 17 occupants

Large Animal Shelter:
- Okanogan County Fairgrounds
- Omak Stampede Rodeo Grounds
- Ridge Riders Rodeo Grounds

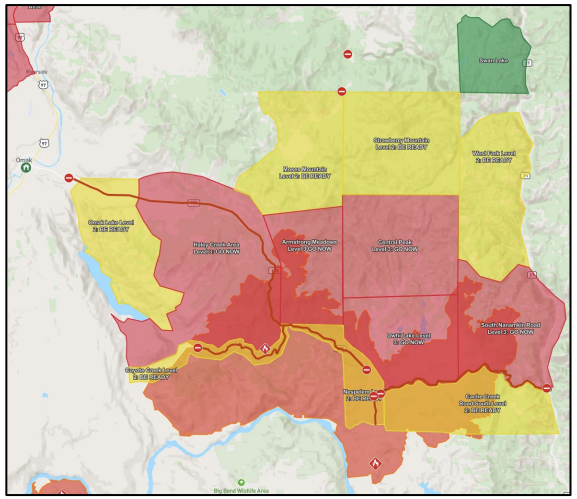

Closures:
- Coyote Creek Rd is CLOSED just past the last residence from Kartar Cemetery to State Hwy 155.
- SR 155 between Omak and Nespelem from mileposts 46-77
- Cache Creek Rd remains CLOSED from Nespelem to State Hwy 21.

Level 3 Evacuations: Go Now
• Along State Hwy 155 on both sides of State Hwy 155 from Coyote Creek Campground to Haley Creek, south to Hailey Creek Rd, South to Omak Lake Rd to Columbia River Rd, South to Kartar Valley Rd.
• Mill Creek area to Owhi Lake area to Bridge Creek Rd.
• From South Nanamkin Rd east to State Hwy 21, State Hwy 21 South to S Empire Creek Rd, East to the Ferry County Line, North to South Nanamkin Rd.
• Armstrong Meadows-East of Coyote Creek Rd, north toward the Armstrong Meadows area
• East of Moses Mountain, east to County Line, south to Central Peak area, west to Mill Creek, then north to East Moses Mountain area.

Evacuations:
- All areas west of Okanogan River north to Oroville, including Palmer Mountain, are now in Level 3.

Level 2 Evacuations: Be Ready
• E of Omak Lake and N Omak Lake Rd to State Hwy 155, E on State Hwy 155 both sides of road to Haley Creek.
• Coyote Creek Rd from State Hwy 155 to Columbia River Rd.
• Haden Creek Rd in Moses Mountain area up to N border of the Colville Reservation.
• NW along Gold Lake Rd continuing to West Fork and State Hwy 21, S on State Hwy 21 to S Nanamkin Creek Rd, W on S Nanamkin Creek Rd to intersection of Central Peak Rd and Ferry County line, then N along Ferry County line to Gold Lake Rd.
• From Cache Creek Rd S to the W side of State HWY 21, to E of the Nespelem Agency Campus.
• N of Nespelem Agency, the Town of Nespelem and School Loop Rd, and both sides of State Highway 155 up to Coyote Creek Rd.

Disaster Assistance Centers:
- Lucy F. Covington Government Center, 21 Colville St, Nespelem, WA 99155, Aug. 4-6, 9am-5pm

26-2813 MODRITE FIRE - CONFEDERATED TRIBES OF THE COLVILLE RESERVATION / FERRY

Current Situation

The Modrite Fire in Ferry county is currently at **51,836** acres. It is 17% contained. Firefighters are mopping up and patrolling in the northeast corner and around Inchelium, Bridge Creek Road, and Kewa-Meteor Road. Structure protection and assessment activities continue in the Twin Lakes area and north of Bridge Creek Road. Resources will be scouting for direct and indirect fire line opportunities to tie together existing roads and natural features to the west of the fire's edge. In addition, firefighters will continue to ensure that structure protection in the interior and eastern portions of the fire continue, while patrolling containment line on the southern edge of the fire, ensuring that line remains secure. Night shift resources will continue to secure containment lines, in addition to structure protection.

Location:	**Start Date:**	**Percent Contained:**	**Land Ownership:**	**Fuel:**	**Cause:**
17 miles SW of Inchelium	07/17/2026	17%	Private	Grass, brush, and timber	Lightning

Command: CIMT NW Team 3

Resources Involved:
- Assigned Personnel: 637
- Crews: 7
- Engines: 31
- Dozers: 5
- Aircraft: 1

Impacts

Estimated Homes and Structures Threatened:
- Destroyed: 15 structures (2 single residences, 1 non-residential commercial property, and 12 other minor structures)

American Red Cross Managed Shelter(s):
- Kettle Falls Middle School (Kettle Falls School District): 10 clients, 5 pets

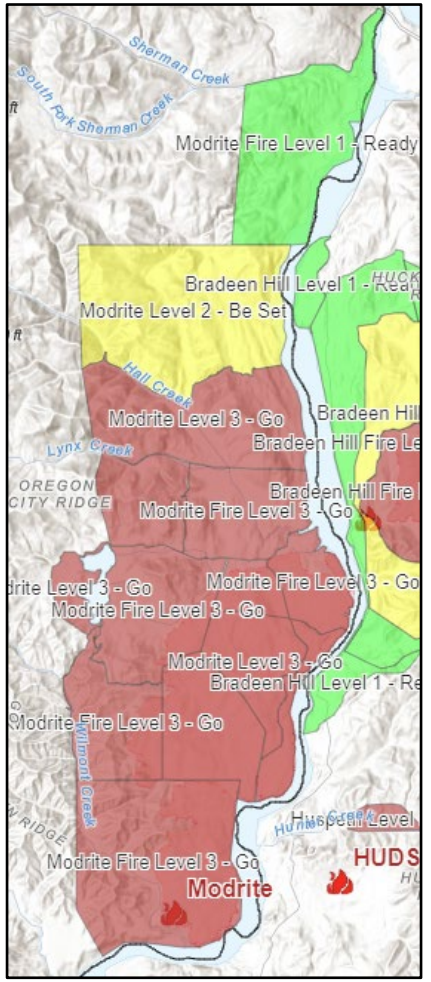

Closures:
- Wilmont Road is CLOSED at South Twin Lakes.
- Silver Creek Road is CLOSED between Four Corners and Kewa Road.
- Bridge Creek Rd intersection with Silver Creek Rd is CLOSED to Four Corners.
- Gifford Ferry Rd is CLOSED. Use Inchelium Hwy or Hwy 25 to Kettle Falls to evacuate.
- Bridge Creek is CLOSED from Twin Lakes to Inchelium.
- Inchelium Hwy is CLOSED to Barnaby Creek.

Level 3 Evacuations: Go Now
- Lynx Mountain area to Hall Creek, Hall Creek Rd/Elbow Lake Rd E to Columbia River, Rainy Ridge
- Spud Cellar Rd to airport
- Round Lake Seylor Valley Rd to Columbia River
- S of Bridge Creek Rd, E side of Twin Lakes to Twim Lakes Rd (Boc Canyon), Meteor area
- Region S of Bridge Creek Rd, between Silver Creek Rd and Twin Lake Meteor Rd, Stranger Mountain
- Hall Creek S, Inchelium, Silver Creek Rd, Bridge Creek Rd to Inchelium-Gifford Ferry, S to Covada Rd.
- Wilmont Rd E along Twin Lakes RD S to Seymour Hill
- Intersection of Silver Creek Rd and Upper Falls Creek Rd (Smoke Ranch), Silver Creek Rd to Kewa Cemetery, W to Star Rd, S to Upper Falls Creek Rd.
- Kewa Rd. intersection at Silver Creek to Rodgers Bar

Disaster Assistance Centers:
Lucy F. Covington Government Center, 21 Colville St, Nespelem, WA 99155, Aug. 4-6, 9am-5pm

Level 2 Evacuations: Get Set
- N boundary of Colville reservation, Little White Mountain, Finley Ponds, Stall Creek, Hall Creek
- Barnaby Creek to N border
- Elbow Lake, La Fleur Lake, Simpson Lake to Columbia River

Level 1 Evacuations: Be Ready
- S of Lake Ellen along CCT line E along the CCT line to Columbia River the N along the river to the bridge
- Hwy 20 Junction, W along Hwy 20 to the road to Canyon Creek Campground

26-2936 BRADEEN HILL FIRE – STEVENS COUNTY

Current Situation

The Bradeen Hill Fire is currently at **4,366** acres and 7% containment. On 8/02/2026, the fire spread in higher elevation areas where strong wind gusts pushed it across ridges. Most activity occurred in the northeastern corner, where there was some short-range spotting around Deadman Hill. Air resources and crews stopped forward progress on the spot fires. As a strong cold front cools the area and raises humidity levels, smoldering and creeping in the fire's interior is expected. Crews are planning to take advantage of diminished fire activity and go direct on the northern head of the fire. Dangerous red flag conditions are expected across the area today, increasing the likelihood for extreme fire behavior. Winds are projected to be 30-40 mph beginning around 10 a.m. with gusts up to 45 mph in the afternoon. Overnight relative humidity levels are expected to remain in the low 20s through the weekend, contributing to the cumulative drying effect.

Location:	Start Date:	Percent Contained:	Land Ownership:	Fuel:	Cause:
17 miles SW of Colville	07/25/2026	7%	Federal	Brush and timber	Under Investigation

Command: CIMT NW Team 3

Resources Involved:
- Assigned Personnel: 439
- Crews: 8
- Engines: 38
- Dozers: NA
- Aircraft: NA

Impacts

Estimated Homes and Structures Threatened:
- 220 homes/structures threatened
- 3 homes/structures lost

American Red Cross Managed Shelter(s):
- Kettle Falls Middle School (Kettle Falls School District): 10 clients, 5 pets

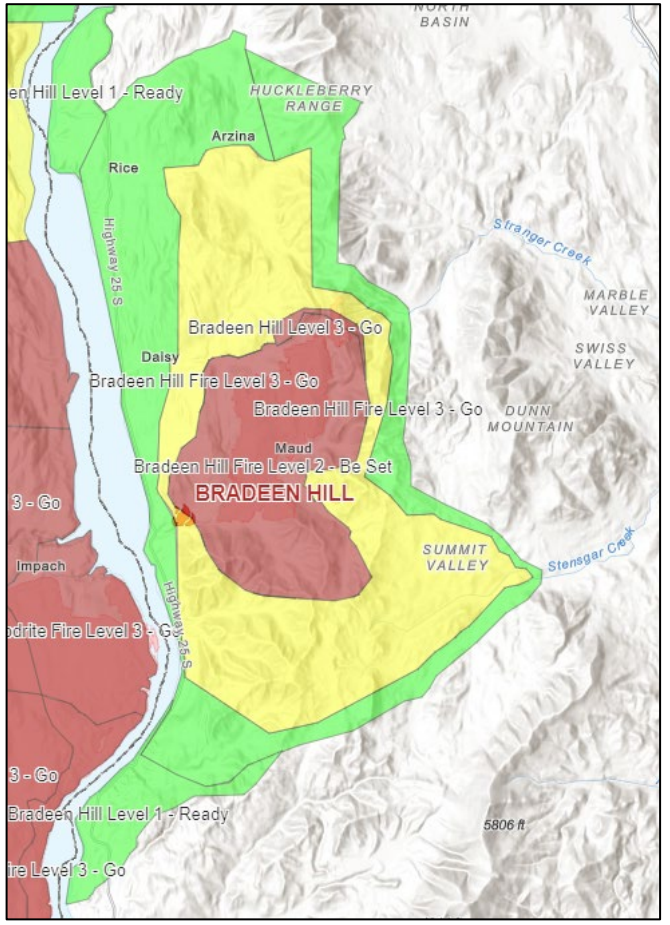

Closures:
- Addy-Gifford Rd is closed from Miles Rd. to Grimm Rd.
- Daisy Mine Rd is closed at the intersection with Beck Rd.

Level 3 Evacuations: Go Now
Evacuations have been issued for the Gifford area and Addy-Gifford Road is closed.

Evacuations:
All areas west of Okanogan River north to Oroville, including Palmer Mountain, are now in Level 3.

Level 2 Evacuations: Be Prepared
Orin Rice Rd to the north to Cedonia Addy Rd in the south and Hwy 25 S to the west to intersection of Addy – Gifford and Cedonia Addy Rds to the east

Level 1 Evacuations: Stay Alert
Edge of the Columbia River to the E side of Cedonia Addy Rd. and north to Pleasant Valley Rd.

LITTLE GIANT FIRE – CHELAN COUNTY

Current Situation

The Little Giant Fire is currently at **70,853** acres and 0% contained. Firefighters are taking advantage of low winds and repressed fire behavior to contain the spot fires near and around Lake Chelan on the northeastern side of the fire.
Smoke is a significant issue on with AQIs reported in the Hazardous range (800+).

Location:	**Start Date:**	**Percent Contained:**	**Land Ownership:**	**Fuel:**	**Cause:**
30 miles NW of Leavenworth	07/15/2026	0%	Federal	Brush and timber	Lightning

Command: CIMT CA Team 2

Resources Involved:
- Assigned Personnel: 1,432
- Crews: 29
- Engines: 35
- Dozers: NA
- Helicopters: 4
- Fixed Wing: NA

Impacts

Estimated Homes and Structures Threatened:
- 1,814 structures threatened

Shelter:
Entiat Warehouse Community Church

324 East Jonson Ave, Chelan

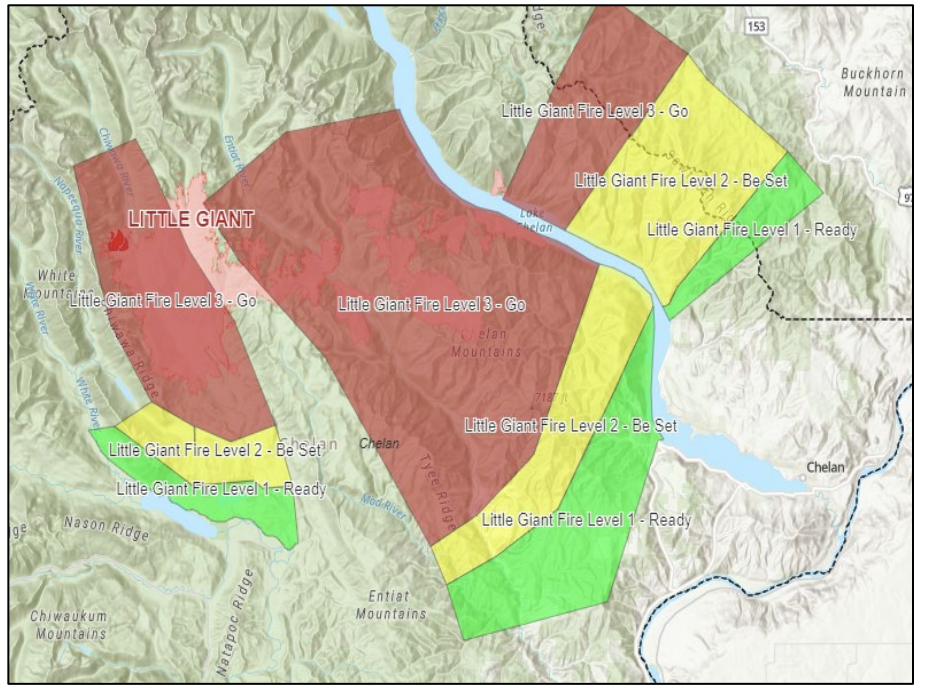

Emergency Center:
Entiat Warehouse Community Church

Closures:
- The Chiwawa Road (FS 6200) and Phelps Creek Road (FS 6211) are closed to the public at the gate above Atkinson Flat Campground. Trail and area closures are also in place off 6200 Rd.
- Entiat River Rd at MP 17.
- South Lake Shore Rd.

Level 3 Evacuations: Go Now!
- All of the Trinity area to Twin Creek Rd (FS Road 6209)

Level 2 Evacuations: Get Set
- Twin Creek Road (FS Road 6209) to the south of Fish Lake at Chiwawa Loop Rd.
- Entiat Valley from Entiat Valley Rd including Myrtle Lake

Level 1 Evacuations: Get Ready
- Meadow Creek (FS Road 6300) to south of Fish Lake at Chiwawa Loop Rd.

Pacific Northwest
7 Day Significant Fire Potential

Monday, 8/3/2026

Predictive Service Areas	ytd	Today	Tue	Wed	Thu	Fri	Sat	Sun
NW01								
NW02								
NW03								
NW04								
NW05								
NW06			BEN					
NW07			BEN					
NW08								
NW09								
NW10								
NW11								
NW12								

Fire Weather: Strong high pressure develops over the Northeast Pacific today then covers the Geographic Area Tuesday through at least Friday. This will result in hot and very dry conditions, with poor humidity recovery beginning tonight over the eastside PSAs. Poor humidity recovery can be expected over the eastside and westside higher terrain Tuesday night through Friday. North to northeast wind develops Monday and continues through early Tuesday east of the Cascades and in the Columbia Gorge enhancing fire weather concerns. A thermal trough will develop across the southern and central Oregon Cascades today and Tuesday resulting in favorable conditions for increasing instability. The thermal trough shifts to the east Cascade slopes and into the Okanogan Valley Wednesday. Models indicate the possibility of another dry cold frontal passage next weekend.

Check NWS products for specific forecast details in your area.

Fire Potential: Significant fire potential will remain elevated east of the Cascade crest. Moderate risk will extend to westside areas as hot, dry, and unstable conditions develop Monday through Wednesday. Tuesday will bring a critical burn environment for PSA NW07. ERCs will rise steadily through the week under persistent heat and dryness, with many PSAs reaching or exceeding the 97th percentile by week's end. Conditions will remain favorable for active fire growth for the foreseeable future.

Fire Danger Trends:

Preparedness Level:
Northwest: 5
National: 5

Legend

Significant Fire Risk Levels

Low	The Overall Fire Environment suggests a very low risk for significant fires (**less than 1% chance**)
Moderate	The Overall Fire Environment suggests a moderate risk for significant fires (**1 - 4% chance**)
Elevated	The Overall Fire Environment suggests a moderately high risk for significant fires (**5 - 19% chance**)
High Risk	The risk for significant fire(s) is very high (≥ 20%) Triggers: 1. ⚡ (Significant Lightning) 2. BEN (Critical Burn Environment)

The assessment of Significant Fire risk considers three main factors including: weather elements, number of ignitions, and background fire danger.

Significant Fire risk is derived objectively via statistical methods that combine all three factors. **High Risk** levels (≥ 20% probability of a significant fire) are usually due to numerous fire starts from lightning. Human fires don't often result in a large fire probability above 20%.
