

## 2017 Construction Apprenticeship Guidebook

CONSTRUCTION CENTER OF EXCELLENCE

## 2017 Construction Apprenticeship Guidebook

Produced and compiled by

## City of Seattle City Purchasing and Contracting Services

In early 2015, Mayor Murray signed an ordinance passed by Seattle City Council to approve a Priority Hire program for City public works construction projects of \$5 million or more. Using City-funded construction projects, the Priority Hire program prioritizes the hiring of residents that live in Seattle and King County economically distressed communities, women and people of color.

## Introduction

Are you looking for a career instead of a minimum wage job? Are you considering a career in construction? Then you have come to the right place. Keep reading.

We need contractors, foremen and trained professionals to build structures like our homes, offices, high-rises, roads and bridges. These projects are essential to our everyday life and require hundreds of workers trained in more than 20 different building trades. Building trades (also called trades, crafts or skills) include laborers, ironworkers, cement masons, carpenters, heavy equipment operators, pipe fitters, sheet metal workers, painters and many more. This book is designed to help you get started down the pathway to becoming one of those skilled professionals with a high-paying career in the building trades.

You do not need construction skills to get started; the professionals will teach you what you need to know. But there are some essential things you will need right from the start to succeed:

**Attitude:** Be open to learn, love hard work,

and strive to be the best.

**Reliable:** Show up and work hard every single

day, no matter what.

**Early:** Always be on site a half hour early

to prepare for work.

Respect: Listen carefully, pay attention, and

follow directions.

Hands-On: Learn by doing, solving problems,

and overcoming challenges.

**Tough:** Not afraid of hard work, heights or

cold, wet weather.

**Drug Free:** Construction sites can be dangerous.

Everyone must be alert.

**Safety:** Safety first. Pay attention.

Wear safety gear at all times.

#### **Pre-Apprenticeship**

Pre-apprenticeship (preparatory) training programs are supportive, hands-on and help prepare people for entry and success in the building trades. These preparatory programs provide construction training, education, and assist with driver's licensing, transportation, childcare, budgeting, etc. The best part is if you show up and bring your best every day, they will help you get into a paid apprenticeship program.

If you already have your high school diploma/GED, driver's license and a proven work ethic, you can apply directly to an apprenticeship in the building trade of your choice.

#### **Apprenticeship**

Once you are in an apprenticeship training program, you are officially an apprentice, working on a construction site, learning your trade and getting paid. You EARN while you LEARN.

It takes about four years for apprentices to become experienced journey-level workers. They reach journey level by learning from experienced workers on the job site and taking classes.

Apprentices get regular pay raises at each level along the way, plus benefits and a pension.

You do not need a clean record, a college degree or past experience. You just need to apply and try out for one of the pre-apprenticeship or apprenticeship training programs outlined in this book. These training programs need Seattle and King County residents, veterans, women and people of color.

A career in the building trades is important, fast-paced work that is physically and mentally challenging every day. At the end of each day, you will be very proud of what you have learned and what you have built. And, most importantly, you will be able to support yourself and your family for a lifetime.

#### **Experienced Workers**

Candidates with five or more years of experience in a particular trade should contact the union hall directly:

www.seattle.gov/Documents/Departments/FAS/PurchasingAnd-Contracting/Labor/SBCTC-Affiliates.pdf.

## **Support Services**

#### For Pre-Apprentices and Apprentices

#### **Apprenticeship Opportunities Alternative Solutions Project (AOP)**

AOP helps people prepare for, apply to and complete construction apprenticeship. AOP services include resume building, interview skills, application completion, counseling, mentorship and financial support. Financial support is for items such as gas, tuition, work clothes, tools, initiation fees and union dues. Pre-apprentices and apprentices are eligible if they are:

- · A King County resident
- Low-income
- Drug free
- · Able to obtain a Washington state driver's license

#### To Apply

Attend an informational session Schedule an intake meeting Complete an application and submit required documents

#### **Contact**

Vernel Nicholas 206-381-1384 info@anewaop.org 550 SW 7th St., B305, Renton, WA 98057 www.anewaop.org

The Department of Social and Health Services (DSHS) is redesigning service to customers through Alternative Solutions. There are new grants, programs and services available to preapprentices and apprentices to ensure they have a successful and sustainable construction career.

The Alternative Solutions program includes a comprehensive, user-friendly database with over 3,300 statewide communitybased organizations providing barrier removal services.

DSHS created this database to ensure that people of color, women, people living in economically distressed communities and people transitioning away from the justice system or military service have the support they need to succeed.

## **Union Apprenticeship**

Once you are in an apprenticeship training program, you are officially an apprentice, working on a construction site, learning your trade and getting paid. You EARN while you LEARN.

It takes about four years for apprentices to become experienced journey-level workers. They reach journey level by learning from experienced workers on the job site and taking classes. Apprentices get regular pay raises at each level along the way, plus benefits and a pension.

You do not need a clean record, a college degree or past experience. You just need to apply and try out for one of the preapprenticeship or apprenticeship training programs outlined in this book. These training programs need Seattle and King County residents, veterans, women and people of color.

## **Boilermakers 104**

THE RESTRICTION OF THE PARTY OF

Represented by the International Brotherhood of Boilermakers Local 104

Boilermakers are complete metal fabricators in shops and shipyards. They work with steel, aluminum and other metals to fabricate boilers off-site that get delivered to construction sites. While they weld ships, bridges, garbage dumpsters, etc., their focus is mainly on the maritime industry.

#### **Minimum Qualifications:**

High school diploma or GED

Driver's license or other state- or federal-issued ID

Clean drug Test

#### **Application Process**

Applications accepted Wednesdays from 9:30 – 11:00 AM

Complete an assessment

Once placed in the candidate eligibility pool, you may be called in for an interview

Candidates in the eligibility pool may seek their own employment as an apprentice

#### **Need To Succeed**

Be physically capable to do the work

Show up early every day

Work well with others

Have a positive attitude

Enjoy hands-on work

Have reliable transportation

#### **2016 Hourly Wages**

Starting Apprentices \$28.76 Wage

Benefits, pension and journey-level wages vary by location and contract.
