

What is the ETV Program?

The ETV program provides financial assistance for eligible youth to attend an accredited college, university, vocational or technical college.

ETV awards are unique to each student and are based on the college or university's Cost of Attendance (COA) formula, financial aid award and the student's unmet need.

The maximum ETV award, per academic year is \$5,000. Not every student is eligible to receive the maximum amount; awards are based on the student's unmet need which is determined by their college or university.
