

Common Resources: Washington Youth Reengagement

Youth Reengagement in Education

In school settings, youth reengagement means identifying and supporting youth who have left, dropped out, or disconnected from school. To mitigate the barriers to school reengagement, many social service and other supports are required. Youth reengagement requires a wholistic approach.

The Re-engagement Ecosystem

The [National League of Cities](#) (NLC) developed a model called the Re-engagement Ecosystem. The Re-engagement Ecosystem highlights six high-leverage areas for supporting youth between the ages 16-24 who are not presently in school or working, also known as "[Opportunity Youth](#)".

This model was developed to highlight the specific resources and supports opportunity youth may need to be successfully reconnected.

To learn more, watch the recorded presentation "Reengagement Core Concepts" on the Open Doors Youth Reengagement [YouTube playlist](#).

Washington state resources and services

See the chart below for Washington state resources. The chart is aligned to the six components of the Re-engagement Ecosystem. The list is not exhaustive, yet it is a collection of commonly accessed and frequently requested supports for youth reengagement work.

<p>Education options & points-of-entry</p>	<p>Open Doors Youth Reengagement Program Serves older students, ages 16-21, that are severely credit deficient and who have left traditional and/or alternative school or who are at risk of leaving.
