

# OSPI OFFICE OF NATIVE EDUCATION NATIVE LITERACY CONVENING

## TUESDAY, MAY 28

8:00-4:00 P.M. • KIANA LODGE

14976 SANDY HOOK RD NE, POULSBO, WA 98370

This is an in-person event that brings together professionals working in fields directly impacting Native student literacy across the state.

The objective of this gathering is to allow for space and time to collaborate and gather best practice, shared difficulties, and next steps to help guide and grow the Native student literacy work happening within the Office of Native Education. The data gathered during this convening will eventually impact the larger work across Washington State.

We ask that this space remain as close to the work as possible, while it is exciting, it is also important that our Native Student Literacy Workgroup, school district employees serving AI/AN Title III students, as well as Tribal education departments have priority in registration.
