Behavior Supports in Schools Collaborative Quarterly Meeting

January 29, 2025 | 1–3 pm | Virtual

Join your colleagues at the second quarterly Behavior Supports in Schools Collaborative meeting on Wednesday, January 29. We will spend our first hour engaging in shared learning around effective implementation of Multi-Tiered System of Supports (MTSS). In our second hour together, we will break out into job-alike groups for collaboration and discussion. This event is free and clock hours are available as well. To register, visit the pdEnroller [event page](#).

Graduation Equity Webinar: Artificial Intelligence (AI) Hacks for Leadership Teams

January 8, 2025 | 10–11:30 am | Virtual

New technology can make people feel uncomfortable and is created to help us do our work more efficiently. Schools across the country are grappling with what it means to use artificial intelligence with school work. We know that students and teachers are already using it and it is changing the way we write, learn, and offer supports. Washington has created guidance for artificial intelligence use in schools that's becoming the model for other states. Join some of the authors of the guidance to talk about how you can use it with your teams and address concerns from your staff. We will have examples from the classroom and from Jethro Jones, author, podcaster, and founder of Transformative Principal to share examples of how he coaches school teams to use this new technology. Free Equity Clock Hours are available for participants. Visit the Zoom [registration page](#) to register.

Objectives

- Gain awareness of **common concerns** around using AI and how to address them
- Learn ways that AI can **support instruction** and **streamline leadership team activities**
- Learn a system for asking thoughtful **prompts** you can use
- Learn from **school leaders** that are using AI

Presenters

- Kefi Andersen, Assistant Director of Early Warning Systems, OSPI, kefi.andersen@k12.wa.us
- Bre Urness-Straight, OSPI, bre.urnessstraight@k12.wa.us
- Jethro Jones, Founder, Transformative Principal, jethro@transformativeprincipal.com
- Jeff Utecht, <https://www.jeffutecht.com>
- Aaron Makelky, aaron@m4ward.win

Special Education Technology Center Professional Development Opportunities

The Special Education Technology Center's (SETC) webinars address technology tools and strategies to support inclusive learning environments. SETC will be offering a variety of free webinars and a community of practice series during the month of January. Sign up for webinars by logging in to the [SETC website](#), selecting the title you are interested in, and proceeding with registration. You can also find more information about upcoming webinars on the [Professional Development and Resource and Opportunities flyer](#).
