

Authorized Lake Sturgeon Registration Stations

INSTRUCTIONS FOR REGISTRATION

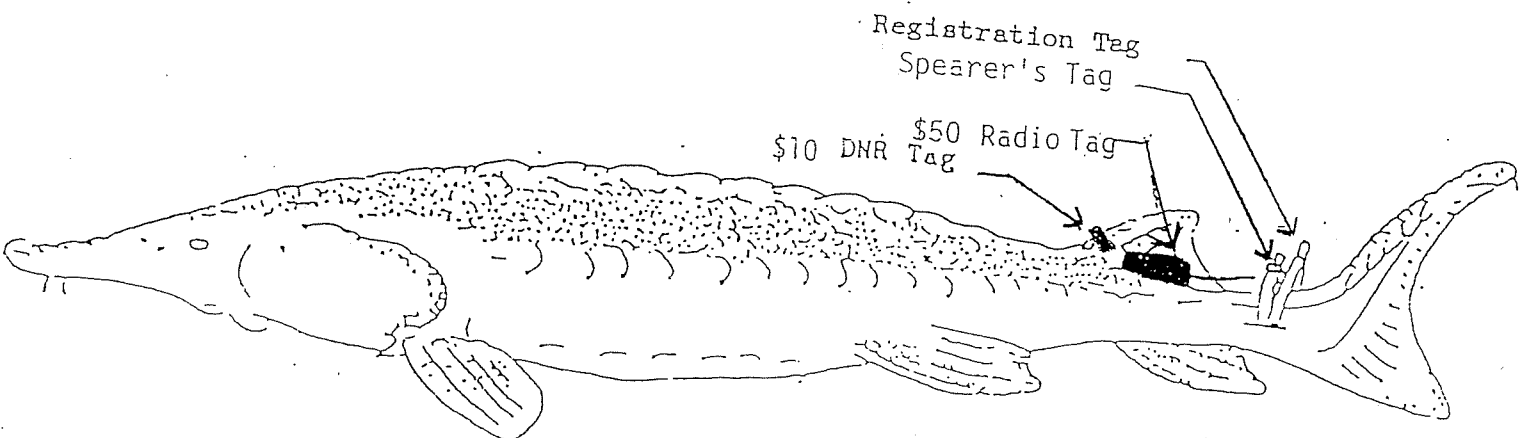

1. Register lake sturgeon
 - a. Attach a registration tag near the spearer's tag (refer to diagram).
 - b. Weigh and measure the sturgeon.
 - c. Record information on spearer's license stub - COLLECT THE LICENSE STUB
2. Check each lake sturgeon for a DNR tag on the dorsal fin (refer to diagram).
 - a. Remove the tag and put it in the envelope.
 - b. There is a \$10 reward for these tags; please record spearer's name and address on the envelope, so the tag and \$10 check can be mailed to him/her after the season.

There is also a \$50 reward for each of the several sturgeon bearing radio transmitter tags. One of the sturgeon contains a radio tag inside the body cavity, which can be identified by a red thread-like antennae (6" long) on the belly and an orange circular plastic tag on the dorsal fin. The other sturgeon have the radio tags attached to the dorsal fin on the back of the fish. If anyone spears one of these fish, please have the registration station call the DNR office or Wendt's Bar and Harbor (414)688-5231. We would like to examine this fish before it is cut up.

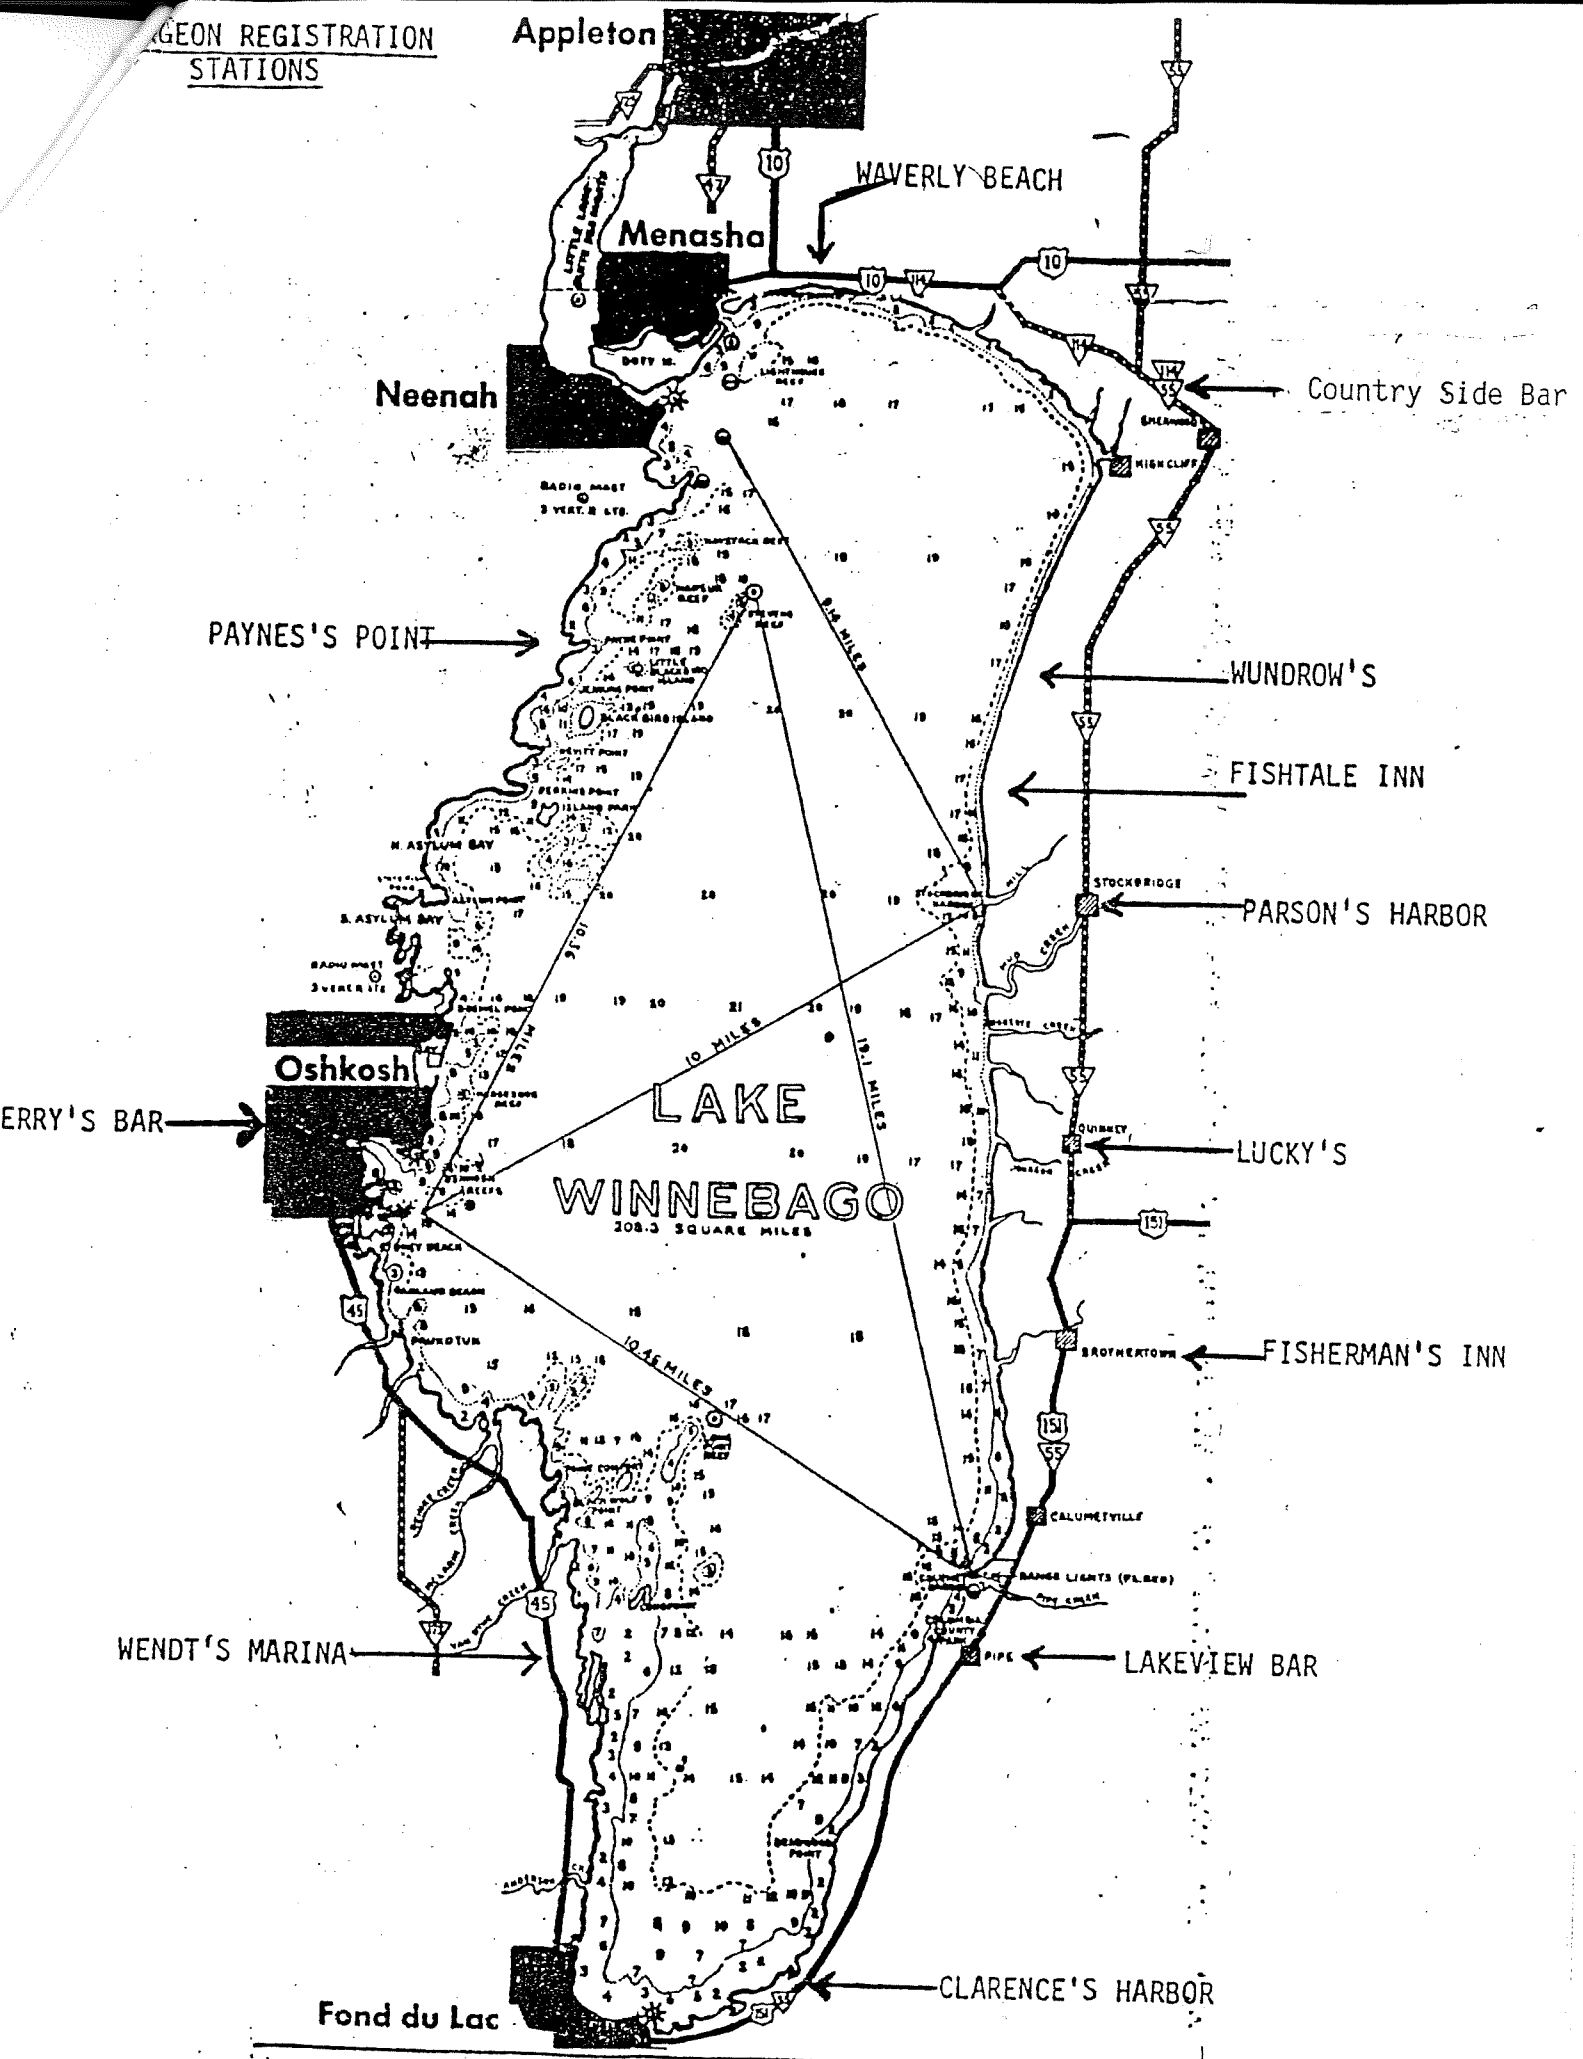

All reward monies are being offered by "STURGEON FOR TOMORROW".

As in the past, each station will receive 50 cents per sturgeon registered. Sometimes registration becomes an inconvenience for the station; however, neat-accurate records should be kept. The Lake Winnebago sturgeon fishery is unique to this area (largest of its kind in the world) and we should all show pride in this fact by doing the best job possible. We will be calling the stations every 2 or 3 days during the season to update the number of sturgeon speared.

If you have questions or comments phone: Dan Folz (414)424-3059
DNR Oshkosh Office
weekdays - 7:45 a.m.-4:30 p.m.
