February 27	47	21	5	Merlin Pucker, Rosendale, Wisconsin
March 1	69	92	6	Norbert Baumhardt, Route 1, Eden, Wisconsin

Total of eight sturgeon were registered during the 1969 season.
By far the lowest ever recorded since registration began.

Clear water was available up to January 24 when it gradually clouded
up from runoff water so that spearers could only see six or seven feet
the majority of the season.
