

Deer Management Assistance Program

A partnership for healthy deer and healthy habitat

Wisconsin Rental Equipment Programs

Last Updated: August 2023

This list was compiled by the Deer Management Assistance Program (DMAP), Wisconsin Department of Natural Resources and is intended to help identify equipment available for rent or lease for use on private property. The listed entities are governmental and non-governmental organizations in which rental equipment is available; however, equipment may also be available through local businesses such as distribution centers. Any revisions or additions of rental opportunities can be sent to DMAPDNRHELP@wisconsin.gov. Please note that this list does not imply any endorsement or recommendation by the Wisconsin DNR.

Ashland
