

SCHOOL SAFETY & SECURITY Assessment Program

The question every district leader asks themselves:
"Are we doing enough in our district to ensure the safety and security of our students and staff?"

Why not get a second opinion from industry experts?

Here's what we recommend....

We believe the ideal program is a combination of:

- Periodic thorough on-site assessments (recommended every three years) by a WSSCA assessment team to provide an outside view and bring you best practices from other districts.
- Regular self-assessments done in house with collaboration of local law enforcement. We will teach you how to do that in our *Self-Assessment Training Workshop*.

ON-SITE ASSESSMENT

A WSSCA – trained professional or team of professionals will conduct a comprehensive on-site, in-person safety and security assessment for your school or district.

WHEN: Mutually – agreed upon date and schedule.

COST: Assessments start at approximately \$1,900 / school
