Analysis by the Legislative Reference Bureau

Under this bill, in awarding grants to dairy processing plants, the Department of Agriculture, Trade and Consumer Protection must give preference to small dairy processing plants. Under current law, DATCP promotes the growth of the dairy industry through research, planning, and assistance by making grants to persons operating dairy processing plants and making grants and loans to dairy producers.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.
