

OFFICE OF THE GOVERNOR

EXECUTIVE ORDER #282

Relating to Declaring an Energy Emergency

WHEREAS, the health, welfare, safety, and economic well-being of the people of the State of Wisconsin depend on access to residential heating fuel, including heating oil and propane, and its unimpeded distribution;

WHEREAS, demand for residential heating fuel is substantially heightened due to winter weather conditions throughout the region;

WHEREAS, the Enterprise pipeline distribution system, with residential heating fuel distribution terminals within the state and greater regions of the Midwest, reported a pipeline disruption that occurred November 27, 2025. The limited pipeline operations have affected terminals throughout Wisconsin and surrounding states. Subsequently, limited supplies of product on hand, and product being distributed on allocation and loaded directly off of the pipeline, is resulting in long wait times and drivers traveling longer distances to obtain product;

WHEREAS, the long wait times at terminals in Wisconsin and neighboring states, combined with the need to truck petroleum products over long distances, is making it difficult for transporters to meet demand while complying with state and federal hours-of-service requirements;

WHEREAS, this situation poses a serious risk to the health, welfare, safety, and economic well-being of the people of the State of Wisconsin because the state and federal hours-of-service limitations are substantially affecting the market in the State of Wisconsin, including difficulty collecting and delivering residential heating fuel;

WHEREAS, allowing the transportation of residential heating fuel within the State of Wisconsin safely and as described in this order will benefit the people of the State of Wisconsin; and

WHEREAS, having consulted with the Wisconsin Department of Transportation, Department of Administration, and the Public Service Commission's Office of Energy Innovation, I conclude that the above conditions warrant waiver of the hours-of-service limitations for motor carriers and drivers of commercial motor vehicles delivering residential heating fuels.

NOW, THEREFORE, I, TONY EVERS, Governor of the State of Wisconsin, by virtue of the authority vested in me by the Constitution and the Laws of Wisconsin, including sections 323.10 and 340.01(15s) of the Wisconsin Statutes, and Title 49 of the Code of Federal Regulations Part 390.23 and Chapters Trans 325 and 327 of the Wisconsin Administrative Code, hereby:

1. Declare and certify that an energy emergency exists throughout the entire State of Wisconsin, as defined by Section 340.01(15s) of the Wisconsin Statutes. This declaration of emergency shall be in effect as long as drivers transporting residential heating fuel are providing assistance for the emergency, or through January 2, 2026 at

11:59 p.m., whichever is shorter.

2. Order that carriers and drivers of commercial motor vehicles, while in the process of obtaining and transporting residential heating fuel to or from a terminal, are exempted from federal and Wisconsin hours-of-service restrictions in 49 C.F.R. Part 395 and Wis. Admin. Code, Ch. Trans 325 and 327. This exemption applies to all highways in Wisconsin.
3. Order that no motor carrier operating under the terms of this emergency declaration shall require or allow an ill or fatigued driver to operate a motor vehicle. A driver who notifies a motor carrier that he or she needs immediate rest shall be given at least 10 consecutive hours off-duty before the driver is required to return to service.
4. This order does not suspend the operation of any state or federal laws within the State of Wisconsin except as specifically described in the order. All other laws remain in full force and will be enforced. This order does not authorize any person transporting residential heating fuel to exceed any statutory vehicle weight, width, length, or height limit. This order does not authorize the use of unregistered or improperly registered vehicles. Vehicles registered in other jurisdictions and not entitled to reciprocity or not registered for use in Wisconsin through the International Registration Plan, must obtain a permit as provided in section 341.41, Wis. Stats. Motor carriers transporting residential heating fuel for hire must have proper authority to operate in this State, as provided by section 194.04, Wis. Stats., and must meet the insurance requirements of section 194.41 or 194.42, Wis. Stats. Carriers must satisfy all ordinarily acceptable federal and Wisconsin requirements concerning vehicle equipment, vehicle operations and driver qualifications and conduct.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the Great seal of the State of Wisconsin to be affixed. Done at the Capitol in the City of Madison this fifth day of December in the year of two thousand twenty-five.

Tony Evers

TONY EVERS
Governor
