

Tony Evers

OFFICE OF THE GOVERNOR

March 31, 2026

To the Honorable Members of the Assembly:

I am vetoing Assembly Bill 104 in its entirety.

The bill would prohibit, with limited exceptions, healthcare providers from engaging in, causing the engagement in or making referrals for certain medical intervention practices if done for the purpose of corresponding the minor's body to a sex that is consistent with the minor's gender identity. In addition, the Board of Nursing, the Medical Examining Board and the Physician Assistant Affiliated Credentialing Board would be required to investigate any allegation that any person licensed or certified by the respective boards has violated any of the prohibitions on engaging in, causing the engagement in or making certain referrals for the medical intervention practices described in the bill.

My promise has always been that I will veto any bill that makes Wisconsin a less safe, less inclusive, and less welcoming place for LGBTQ people and kids. It has been my honor to keep that promise over the course of two terms as governor, and I am proud to deliver on that promise again today.

I am vetoing this bill in its entirety because I object to restricting medical professionals like physicians from providing evidence-based and medically appropriate care to their patients, restricting parents from making decisions with physicians to ensure their kids receive the healthcare they need, and preventing patients from receiving that basic, life-saving care. Healthcare providers should be trusted to provide medically appropriate and accurate information, treatment, and care for their patients without the unnecessary political interference of politicians. Gender-affirming care is recognized by most major medical associations as the evidence-based treatment for transgender and gender-nonconforming youth with gender dysphoria. The American Medical Association, the American Academy of Pediatrics, the American Psychological Association and the American Academy of Child and Adolescent Psychiatry have all stated that gender-affirming care saves lives.

I am vetoing this bill in its entirety because I object to codifying discrimination into state statute and the Wisconsin State Legislature's ongoing efforts to perpetuate hateful and discriminatory rhetoric and policies targeting LGBTQ Wisconsinites, including our transgender and gender nonconforming kids. LGBTQ kids, including transgender and gender nonconforming kids, deserve our love, respect, and support just like any other kid. I restate again today: this type of legislation, and the harmful rhetoric begotten by pursuing it, harms LGBTQ Wisconsinites' and kids' mental health, emboldens anti-LGBTQ harassment, bullying, and violence, and threatens the safety and dignity of LGBTQ Wisconsinites, especially our LGBTQ kids. I will continue to do everything I can and use every power available to me to defend LGBTQ Wisconsinites, protect their rights, and keep them safe.

Tony Evers

OFFICE OF THE GOVERNOR

Finally, and importantly, I am vetoing this bill in its entirety because it fails to comport with our Wisconsin values. We teach our kids to treat each other with kindness, respect, empathy, and compassion—and we expect adults to lead by example. LGBTQ Wisconsinites and Americans should be able to be safe, be treated with dignity and respect, and be welcomed and accepted for who they are without fear of violence, harassment, or persecution. While the federal government and other states across this country may give way to anti-LGBTQ hate, here in Wisconsin, we will continue to decline to do the same.

Respectfully submitted,

A handwritten signature in cursive script, reading "Tony Evers".

Tony Evers
Governor
